Charges Against Woman On Jury Result In Mistrial Decision

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

FEDERAL BUILDING, DETROIT, April 21.—The million-dollar Ford-Sapiro libel trial ended abruptly today when Federal Judge Fred M. Raymond ordered a mistrial, discharged the jury and remanded the case for a new trial.

The mistrial was granted on a motion by counsel for Henry Ford because Mrs. Cora Hoffman, one of the woman jurors, talked to newspapermen about the case.

Gallagher replied at length, attacking the reasons cited in the Ford motion and accompanying affidavits. He charged the Ford attorneys with seeking a mistrial for the purpose of keeping Ford from testifying.

"It is our frank belief," said Gallagher, "this situation clearly discloses that the purpose of the defendant's attorneys is not to obtain justice here but to procure a postponement of a verdict and to place the case in the future for trial."

Cold Snap Follows Flood Waters, Adding To Sericus Conditions

(International News Service)

KANSAS CITY, April 21.—With Verdigris river at Independence, Kan., at a six-inch higher stage than ever before and lowlands flooded, cutting off communication to the southeast, Coffeyville and Montgomery county, Kansas, today were bearing the climax of three weeks of high waters.

The city of Coffeyville, with 17,000 population, was today preparing for the worst. Large dikes protected the city on the east side of town, but residents were warned to be ready to move at any time.

In addition to the loss of thousands of acres of crops and farm homes in the lowlands, flood districts today were menaced by outbreaks of typhoid. Serums were being rushed from Topeka to all stricken zones.

Snyder Jury Has 5 Members

Fifth Juror Is Accepted In Case Shortly Before Noon

By JAMES L. KILGALLEN,
International News Service Staff Correspondent

COURT HOUSE, Long Island City, N. Y., April 21.—The fifth juror, Herman Ballweg, retired of Jamaica, a stolid, heavyset man was selected this morning at the trial of Mrs. Ruth Snyder and Henry Judd Gray who are accused of beating the woman's husband Albert Snyder to death with an iron bar.

They look very much alike to the casual glance all five of them being rather plump, jolly-faced and quite able to endure a long trial which this promises to be. And, strangely enough, they all answered questions put to them in much the same manner. They are:

1—William E. Young 38, married, a press agent. He is forman of the jury.

2—Charles B. Meissner, 58, a Landscape gardener, married and with three children.

3—Harry Arnold, 29, a plumber, unmarried.

4—Alfred R. Kraimer, 35, a clerk, married and with three children.

5—Herman Ballweg, retired, Jamaica.

Break Ground For Construction Of New Temple

Rabbi Philo Of Youngstown Makes Address At Ceremonies Here

M. FEUCHTWANGER DAY'S CHAIRMAN

First Steps Are Taken Wednesday On Erection Of Temple Israel

With services, simple but most impressive, staged in a flood of April sunshine, and attended by officers and members of the Temple Israel congregation, the ground upon which the new house of worship will be built, was consecrated on Wednesday afternoon, April 20, at the corner of Moody and Highland avenues, with Rabbi I. E. Philo of Youngstown, O., officiating.

It was not a long service, not one of formality or splendor, rather it was the outward demonstration of a religious faith, the pledging publicly of a people unashamed of their religious belief, and that pledge one that will find fruition in an edifice dedicated to the God of humanity and the service of mankind. The building will be in memory of Rabbi Joseph Leonord Levy, late of Pittsburgh, a man whose teachings were respected by Jew and Gentile alike.

Marcus Feuchtwanger in Charge.

The consecration or groundbreaking services were in charge of Marcus Feuchtwanger, president of the congregation and one of the moving spirits in the work of securing a temple here. At 3:30, after the flag had been raised by Boy Scouts, he called the meeting to order and after a short introductory address called upon Ben Kline, chairman of the building committee. Mr. Kline spoke briefly and said that the work of erecting the building would go forward rapidly.

J. F. Perelman, vice president of the congregation, expressed his pleasure at the actual start of the work following which Miss Florence Weinberg and Miss Dora Winnich sang a duet.

Mr. Feuchtwanger then introduced Rabbi Philo, who made the consecration address. He congratulat-

Federal Guard Of 50 Soldiers Killed By Attacking Rebels

(International News Service)

MEXICO CITY, April 21.—A heavy force of Federal troops, under personal direction of War Minister Amaro, is today in pursuit of a band of from 500 to 1,000 rebels that attacked a passenger train near Guadalajara, killing and burning to death more than 100 passengers, including 20 children and a number of women.

Dr. Mestre, of the Mexican treasury department, one of the survivors, who arrived here on a train with seven wounded and five dead, declared that, after killing the Federal guard of 50 soldiers and two officers, the rebels set fire to the coaches and then shot down the passengers as they tried to escape.

Survivors said that the rebels called out to the passengers in the burning coaches to come out, then fired upon them as they emerged.

Most of the corpses were buried

Plans Are Complete For Mass Meeting Here Friday Night

From one end of Lawrence county to the other, the topic of conversation today is the corn borer meeting which will be held in the Scottish Rite cathedral on Friday evening, April 22, at which State Treasurer Samuel Lewis, Secretary of Agriculture Charles G. Jordan and Dean McDowell of State College will speak.

On the farms the subject is one of immediate importance for the corn borer pest means loss to the farmer. In the city the subject is hardly less important for it is but one step removed from the farm and the loss to the farmer is reflected in high prices to the city man.

Quit Early on the Farm.

For one day in the spring season the farmers are going to take an early quit on Friday night, in order to get in to the cathedral early. Although the meeting starts at 8 o'clock, the building will be open for inspection at 7:30 and those people in the rural sections who have not seen the cathedral will be given an opportunity of doing so.

Ellwood City is coming over, so is Pulaski and New Wilmington, Enon Valley and Hillsville, Plainsgrove and Mt. Jackson, and of course a lot of folks from New Castle. It is one evening's diversion

TO AID WAR ON HIT-RUN DRIVERS HERE

Following the announcement made Wednesday by the New Castle Motor Club of a standing reward of $25.00 for the license number of Hit-And-Run drivers, District Attorney J. Elder Bryan today announced his hearty approval of the plan and promised his co-operation in an effort to apprehend such miscreants.

"The New Castle Motor Club is to be congratulated upon such an announcement," said Mr. Bryan. "Too many times have we had instances of where drivers have crashed into cars and then fled, and without a license number we are helpless to apprehend the criminal. With this standing reward of the Motor Club, I trust that such drivers will be reported, and as district attorney I will certainly pledge my best efforts to their prosecution and conviction."

Mission Family Years In China Bound For Home

Former Jamestown Residents Were In War Section

JAMESTOWN, April 21.—Mr. and Mrs. George D. Schlosser, Free Methodist missionaries in China for the past 18 years, their last station being at Hankow, have left Pekin, according to letters received by relatives here, and are now on their way to America.

Mr. and Mrs. Schlosser, with their four children, are due to land in San Francisco next Monday, and will go to Sunnyside, Wash., before coming to Jamestown. Mrs. Schlosser was brought up in Jamestown, being a graduate of Jamestown high school in 1904. She is a sister of Edward C. Nord and D. Paul Ogren.

Mr. and Mrs. E. P. Miller, members of the Hankow mission, together with their two daughters have arrived safely at Shanghai, China, according to word received by Scott Baker of this city, a brother of Mrs. Miller. The bulletin further stated that there have been no disturbances in Hankow, but added that mission workers have left Wuchang as a precautionary measure.

Labor Conditions Show Improvement In Pennsylvania

BY WILLIAM B. BROWN,
International News Service Staff Correspondent

HARRISBURG, Pa., April 21.—Although still far from normal, labor conditions throughout Pennsylvania showed continued improvement during the first two weeks of April, reports from the various employment offices of the State department of Labor and Industry today indicated.

Partial resumption of building and construction activities has been responsible for the absorption of much of the unemployed unskilled labor. The offices in the larger cities, however, still report a surplus.

There has been but little additional furloughing of railroad employes but practically all of the larger carriers are operating with greatly reduced working forces.

The Scranton office reported that all the larger collieries in the anthracite field have begun working full times and as a result many of the miners who have been unemployed during the winter months are back at their jobs.

Conditions in the bituminous fields remain far below normal, and many miners in that section have drifted into other lines of employment.

The metal industry shows but little indication of full normal activity. Highly skilled specialized workers have had little difficulty finding jobs, despite the fact that there is much unemployment in the industry. Requisition for all around machinists are hard to fill because of the necessity for specialization.

Wholesale and retail lines which take on extra workers during the holiday season in most instances have furloughed all such employes. Reports indicated that the Easter trade was good but that the majority of workers who were employed temporarily have been released.

"Trash" can be courteous as a matter of policy; the "quality" is courteous because it prefers acting that way in any case.

own admission, told Raymond that he loved Dorothy Mackaye.

Just what was said when Raymond's wife and Kelly met, has not yet been brought out. It is known, however, that Kelly called Raymond on the telephone and said that "he was coming over."

Fistic Encounter

Kelly went to Raymond's home ushered in by hot words, the subsequent fistic encounter started almost at once. It was a one-sided battle, according to the negro maid who witnessed the fight. Kelly, muscular and athletic, gave Raymond a terrific beating. Raymond was knocked to the floor five or six times, the maid said.

Raymond was taken to a hospital and there he died early Monday morning.

Kelly's arrest followed. He said he felt he was not responsible for Raymond's death. Nevertheless, he was indicted on a murder charge by the county grand jury here yesterday.

Dorothy Mackaye was a pitiful figure as she was taken before the grand jury for questioning. She took the stand. She fainted again just after she admitted she was with Kelly a few minutes before the screen actor departed for her husband's home. She was carried from the room, unconscious.

in the cathedral which will cost nothing at all, and is open to men, women and children.

Mayor Dunlap and Chief of Police Dysart have promised ample police protection for the hundreds of automobiles which will be parked on the streets near the cathedral. The officers will act as traffic police so that no one need be afraid to bring their automobile along. Lincoln avenue, Wallace avenue, Young street, Blaine street and Boyles avenue will be used for parking, and if necessary adjacent streets can be used.

Grangers Interested.

Mrs. W. E. Geiger, master of the East New Castle grange, has submitted a letter to the News showing the interest of her grange members in the meeting. The letter follows:

Patrons of the East New Castle grange and all friends interested in agriculture and every one who would enjoy an evening's entertainment, are urged to be present at the Scottish Rite cathedral on Friday evening, April 22. Those who can get their by 7:30 p. m. will have an opportunity to see the main part of the building which will be worth while itself.

At 8 o'clock the instructive part of the evening will begin. All those who have heard Dr. Jordan, our secretary of agriculture, speak, will wish to hear him again, and those who have not, and do not make an effort to hear him, will be losing one of the few opportunities of hearing a good speaker free. If our secretary of agriculture, his assistants, Mr. Bussler, State Treasurer Mr. Lewis and Mr. McDowell of State College are willing to spend an evening in entertaining and informing us, we should at least show them courtesy and respect by our presence. Mr. Rentz has promised to fill half of the seating capacity of the cathedral with city people. Now let each one of us help to fill the other 1500 chairs.

Our evening's instruction will be beneficial to our occupations and our country. Our presence will make our secretary of agriculture proud of his home folks.

ed the congregation upon its desire to build a place of worship, told of the necessity of such a building for the religious training of the young men and women and mentioned feelingly his friendship with the late Rabbi Levy, whose memory is being honored in the erection of the synagogue.

Turns First Earth.

Following the consecration prayer, President Feuchtwanger turned the first shovelful of earth, followed by Vice President J. F. Perelman, Second Vice President Jacob Cosel, Secretary A. Levine, Treasurer Sam Klafter, Chairman of the Building Committee Ben Kline and others. With the singing of a stanza of America, the service closed.

The new Temple Israel is designed by Architect J. A. Altschuler and will be erected by Andrew Dietterle and Son. The architecture of the building will be of the Moorish type, two stories nigh of grey brick and terra cotta. In shape it will be of octagonal appearance, with entrances on Moody and Highland avenues.

All activities will be above the ground level, the basement containing nothing but the furnace room and coal storage. The first floor will be the assembly hall, capable of being used for a gymnasium, dining room or dance floor. A fully equipped stage will be at one end, with a kitchen at the other. Three class rooms will flank the assembly hall.

The second floor will be the auditorium in which services will be held. This will hold 250 people. Space will be provided for an organ and a choir gallery and a rabbi's study. Over all the building will represent an investment of about $60,000.

The congregation of Temple Israel is to be congratulated upon this forward step. It will add another edifice to the religious life of the city, serve to solidify and enlarge the congregation and will be a physical improvement on what has been a rather unlovely corner.

In filling the vacancies the president will be guided by Secretary Mellon, who is chairman, ex-officio, of the board and who is known to have disagreed with the policy of the present commissioners.

FLOOD SITUATION IS GROWING WORSE ALONG MISSISSIPPI

(Continued From Page One)

Scott, Leland, Bolivar and adjacent towns. A temporary levee being built by the American Legion, state convicts and 300 volunteers was still holding and may prevent much damage, it was believed.

The surging current was rushing through the break at Scott at an estimated speed of 30 miles an hour, the report said.

Cold Snap Follows

MEMPHIS, Tenn., April 21.—A cold snap descended on the Mississippi flood district today in the wake of freakish winds and torrential rains which has made relief work among the 50,000 homeless extremely difficult.

More moderate temperatures are expected in 24 hours and this will greatly alleviate the situation among the refugees who have been huddled in tents and box cars since the rampaging Mississippi and its tributaries crashed through cement barriers and engulfed the countryside.

Many of the flood sufferers are ill with various kinds of sicknesses, many have severe colds from rain and exposure, while a number of children in the Arkansas refugee camps are reported to be suffering from measles, mumps and whooping cough.

Flood waters today were rapidly spreading out over the entire Saint Francis basin, and hopes of repairing the main Mississippi levee near New Madrid, Mo., have been abandoned. The levee at that point has been swept away for a distance of 10 miles.

Clarendon, Ark., where the crumbling White river levee sent the turbulent waters flowing into the town at a speed of 40 miles an hour, was under 15 feet of water today. Clarendon's streets were canals and scores of houses were reported to have been washed away. The town's 3,000 population fled to the hills.

More Refugees

ST. LOUIS, April 21.—With the number of refugees hourly increasing and with many of these finding it difficult to locate a permanent concentration point, the flood situation in the lower Mississippi valley was reaching a crisis today in Missouri, Illinois and Arkansas.

The number of refugees in these three states is estimated at approximately 50,000, and the area inundated is said to be close to 4,000,000 acres.

Seven companies of Missouri National Guardsmen have been called out by Governor Baker to patrol the areas most affected in this state—Mississippi, Pemiscot and New Madrid counties.

Refugees in Arkansas have been kept almost constantly on the move the past 24 hours, according to reports. Following the break in the levee of the White river and Clarendon, 2,000 persons fled from that city when the water filled their homes from seven to 15 feet in depth.

These refugees went chiefly to Brinkley, but they were advised to move even further from the flooded section and an appeal was sent out for 1,000 tents to be used in that section.

Arkansas is probably the hardest hit section in the flood-torn territory. At Jonesboro 700 additional refugees have just arrived and 3,000 more are expected from Craighead, Poinsett and Mississippi. Red Cross relief workers there reported if the situation becomes more serious mass feeding will soon be necessary.

Investigations Made

Some time ago Federal Enforcer Pennington was here looking over the situation, and it is believed made arrangements, at that time for a visit by his men. Since then officers have been quietly at work, spotting the place where it was believed that liquor was being sold.

No definite information had been given out as to when the Federal officers would arrive, so that in the raids last night, alleged violators of the law were taken completely by surprise.

Act Simultaneously

The federal men, with local officers, divided into groups, so that raids were made simultaneously in different parts of the city, and before the word could be passed around. The charges made are for violations of the Snyder act, possessing and selling liquor.

Considerable liquor was secured in the raids, although no very large amounts in any one place. The work is still going on and it is expected that before evening a number of other arrests will be made. One of the surprises of the raid was the number of women taken into custody.

The arrests are being made on warrants sworn to by Constable Sharp Leslie of the district attorney's office. They are made before various aldermen of this city.

The good old world will be turning long after persons who think they know what is wrong with it have passed on.

Anglers Catch "Half A Fish"

PUNXSUTAWNEY, Pa., April 21.—The first "fish" story was told here this week by two anglers who claim to have caught "half a fish" each.

Two local anglers in conquest of trout in the Clearso they said.

field mountains dropped their hooks near a log. One line was above the log the other line was at the end of it. Both said they felt a strike at the same time and "yanked." Each caught half a trout

MILLION-DOLLAR FORD LIBEL SUIT ENDS ABRUPTLY

(Continued From Page One)

on the trial with 11 jurors. Gallagher said his client was ready to proceed with the trial confident he will win before 11 jurors on the merits of his case.

Many Obstacles.

Gallagher declared no other plaintiff in history has faced the obstacles confronting Sapiro. He pointed out that the trial was held in Ford's home town where "a hundred thousand Ford employes are walking about the city spreading his propaganda."

He also charged the Ford attorneys with persistent efforts to delay and drag out the case.

"Of course, my client cannot match the means and resources of Henry Ford," said Gallagher. "Your honor must realize the strain put upon us. If a new trial is granted, we will be weakened in carrying on our struggle."

The court announced that the department of justice was still investigating the bribery plot charges hurled by Ford's attorneys at Mrs. Hoffman and a man named J. "Kid" Miller. Thus far, he said, there was no evidence to show Mrs. Hoffman had been involved in any such plot. The court also exonerated Aaron Sapiro, plaintiff in the million-dollar case.

Condemns Newspaper.

In granting the motion for a mistrial, Judge Raymond heatedly condemned a Detroit newspaper for publishing an interview with Mrs. Hoffman relative to the charges against her. The interview, he said, was an invasion of the court's functions.

After referring to the fact that he had examined Mrs. Hoffman, the court said:

"The whole matter was turned over to the department of justice for a fair and impartial investigation. That investigation is not complete and the court does not expect a report until later in the day."

The court said he was extremely loath to grant a mistrial because of the five weeks spent in taking testimony. He mentioned having denied two previous motions for a mistrial, one by each side.

"In all fairness to the juror in question," the court added, "it must be stated that up until this time the investigation did not disclose any facts that warrant the filing of charges against her on a matter that would be very serious if true.

"There may have been indiscretion or improper conduct on her part but the court has very grave doubts if this juror participated in any bribery or any attempt at bribery."

Exonerates Sapiro.

The judge gave Sapiro a clean bill of health in these words:

"I have no evidence whatever that Mr. Sapiro, the plaintiff in this case, has indulged in any improper conduct in reference to the jury."

The court added although, that it was possible that the government investigation might disclose new evidence on the alleged plot.

The court condemned counsel for both Ford and Sapiro for giving out interviews last night on the bribery charges. He said the affidavits had not been filed in court until 9:30 this morning, although stories had appeared in this morning's newspapers.

"After reading the morning paper," the judge said, "it was hardly necessary to listen to the arguments of counsel. It was one of the most flagrant violations of the duty owed this court by the newspapers."

The judge declared the trial might have continued, "if it had not been for the newspapers which went so far as to intrude upon the duties of the court."

"Justice Crucified."

"It is unfortunate that any reporter or editor should so far forget his ethics to intrude upon the court's functions," the court added. "These stories though make it impossible to make further progress with this trial.

"The intrusion of the newspapers exceeded any appreciation of the demands of justice," the court concluded. "Justice has been crucified upon the cross of sensational journalism. There will be no chance to make progress in future trials of this case unless justice is given the right of way over sensationalism. It is a terribly unfortunate experience for the court. It has set back the progress of justice for a long time. The court deplores it, but the court has no other choice but to allow the motion for a mistrial."

The judge then discharged this jury but ordered all subpoenaes in force for a new trial.

MEXICAN TROOPS START HUNT FOR TRAIN BANDITS

in a field near the scene of the attack, while many of the wounded were taken to Labarca for treatment.

About a score of the survivors returned to Guadalajara.

The conductor of the train reported that only three families escaped injury. One American, H. Dock, of Guadalajara, was on the train enroute for Mexico City. He was not injured.

An Englishwoman, Miss Watson, who was a passenger, also escaped injury.

Heartbreaking Scenes

Heartbreaking scenes were described by persons who were on the train that took relief to the scene of the attack. One man, half crazed by his experience, laughed hysterically as he described how the rebels had killed all his family, including his mother and three children.

A survivor reported seeing a woman and two children stabbed to death.

The leadership of the rebels who were responsible for the raid is variously reported.

CITY STOPS TAXI "ROLLING"

To relieve traffic congestion, Berlin is endeavoring to stop solicitation, or "rolling", as it is called in the trade vernacular of this country, by taxi drivers. Taxis are assigned to stands in a central parking space and respond only when called. The city has installed 50 telephone stands along the sidewalks so that patrons may easily summon the cabs. Telephone subscribers say the new system is much more satisfactory than the old.

NEW CASTLE CAN WELL JOIN

NEXT week has been designated by state departments as the annual spring clean-up week in the state, as well as a week in which attention will also be given to the matter of reducing fire hazards.

New Castle can well join this movement. There are many premises about the city that can be given attention, both as to the matter of improving their condition as to cleanliness and as to removal of the fire menace.

Owners of vacant lots about the city can especially take note of the effort of the coming week.

While most property owners who reside on their property keep the premises in fairly presentable condition, the sight that some of the unimproved properties about the city presents is deplorable. In fact, there are quite a number of such properties that seem to have been made the dumping ground for rubbish from all of the other properties in the neighborhood. It seems to have been the idea of a large number of residents that the only aim in cleaning up was to get the rubbish off their own premises, even if they only dumped it on an adjoining property that chanced to be unimproved.

This is not the object of a clean-up. The idea is not only to cleanup your own premises, but to have the accumulated rubbish properly disposed of, and not pushed over onto somebody else's property in the neighborhood.

U. S. TAKES LEAD IN AIR

INTERNATIONAL air races have shown year after year that the American airplane motor was inferior to some designed abroad. Races were lost to foreign competitors not because the latter were better flyers but because their engines were faster and sturdier.

That this country has now produced a motor that knows no peers in aviation is seen in the non-stop flight of 4000 miles in fifty-one hours by which the American aviators Chamberlin and Acosta broke the world's endurance record.

It may be said, of course, that long-distance flying in circles is no more like a transatlantic or transcontinental jump than is President Coolidge's electrical horse like a steeplechase. But the truth is otherwise. Flying is flying. One course is the same as another, other things being equal.

Americans are more satisfied with G. M. Bellanca, designer of the plane, and the flyers, Acosta and Chamberlin, than are the Italians with their ace, Commander de Pinedo. And not without justification. The longest of the Italian's jumps was less than half the distance traversed by the American plane.

This is not merely a matter of breaking another record. It means there has been developed a plane promising reasonably safe transatlantic transportation by air and victory for American entrants in forthcoming aviation meets and bring a little nearer to this country the threat of hostile invasion by air.

The nation can see in this achievement one more proof that the United States does not grant primacy in the art of flying to any of its national competitors.

Don't judge men by their views, judge the views by the kind of men that hold them.

In Europe the unemployed sit on the street; many of ours sit at desks and chew gum.

There is no lack of opportunity. Think of the miles and miles of highway that have no hot dog stands.

Turning a corner on two wheels, driving with one hand and burning up a boulevard are things that no one has done more than a certain number of times.

It has been estimated that there are more shiny noses than shiny shoes, which proves nothing.

CHARLES B. DRISCOLL

FUNNY STUFF

James Whitcomb Riley came to our town to entertain with readings, and I sold a load of apples for enough money to buy tickets of admission for myself and a slightly older brother. It was the first public entertainment, except for last-day-of-school performances, that we had ever attended, and Riley was the first celebrity I ever saw.

There was an interlude of hopeless terror when I lost the tickets, the day after buying them, but a few days before the great event, I found the precious pasteboards between the leaves of a little book that I carried in my coat pocket. So we saw and heard Riley.

That night I laughed until I was thoroughly ill, and there was some alarm on the part of my brother lest I be developing insanity and stomach ache at one and the same time. He rightly thought that this might be a rather deadly combination of ailments.

The funny piece, as I recall it now, was about a soldier in the Civil war whose leg was shot away. About every half minute during the recital of this delectable tale, Riley, who was impersonating some imaginary story-teller, would grin foolishly and say, "An' he got his leg shot off." At that I would slide from my hard-earned seat and scream with the pain caused by the unwonted exercise of my laughing muscles. The rest of the audience laughed too. It was not a difficult audience to please.

* * *

Stephen Leacock wrote a piece about his first experience in depositing money in a bank. It is in one of Leacock's books, though I am not sure which one. I read it when I was going to school, and in an effort to read it aloud to my roommate, I overturned the oil stove with which the room was supposedly heated. It was some days before we were able to resume the reading, and then we chose a wide space in a pasture for the exercise. I still think that is one of the funniest bits of writing in existence.

Hints and Dints

Sun sets tonight 6:45.
Sun rises tomorrow 5:13.

The peculiar religious ideas of some people are almost as bad as not having any religion at all.

In an Ohio city all the hootch that is confiscated by the police is poured into the cracks and crevices in the jail house and it kills instantly the bugs that drink it. The bugs cannot stand the bug juice, it seems.

Once upon a time they told us that bobbed hair woul lead to baldness. That, we think, was about five years ago. But if any baldness has developed among the female population of New Castle we have been unable to discover it. Most of the dear girls seem to have a mop of hair that would do credit to a South Sea Island princess.

Some foreign nations have passed laws that allow women to fight in wars the same as men. This will make it possible for a man and his wife to shoulder their arms and march away to war together. This is taking some of the terrors of parting out of wars, anyhow.

Other manufacturers can get out cheap cars, but the engineers don't seem able to duplicate that characteristic rattle.

We are told that state police are going after the birds who drive on the highways at night with glaring headlights. We have heard that many times, but the glaring lights are always with us. We have a lot of respect for the state police and we hope they can make an improvement that will be noticeable.

In the days of wine, women and song very few people ordered a song.

No fire engine ever made the noise that some of the auto busses make as they ram into this city. Those vehicles could not sneak up on a deaf and dumb school.

We have noticed in some of the notorious murder trials in this country in recent years that many of the jurors examined for jury duty are opposed to the "hot seat", meaning the electric chair. Some people have a big change of heart when some member of their family or a near relative is murdered.

Quite a few people have asked us questions about the display of shamrocks in the lobby of The News office. Now if they asked us something about cabbage we might answer them, as any Dutcher could, but we will have to leave the shamrock stuff to an Irisher.

On Friday evening of this week there will be a great mass meeting in this city at the Scottish Rite Cathedral. It will be an educational and instructive meeting. Three great outstanding figures in the life of our great state of Pennsylvania will speak to us that evening. Men and women are urged to go from country and city. No admission and you will enjoy it.

A murderer in New York not only blames a woman for his plight, but also says likker—that is the drinking of it—had much to do with his fall, in fact, had everything to do with it. Some men will not give themselves credit for anything not even murder when they are guilty of it.

People who attend the modern dances will find when the dance floor is pretty well crowded that they are just as liable to get kicked as one used to be in a horse or mule stable. And there are times when one thinks a horse has galloped over him.

Training is what makes a man look longingly at the guest towel and then wipe his hands on his pocket handkerchief when he is out visiting.

Dear Hints and Dints: What is a stork shower? Alice. That's easy. Triplets.

There is one problem that will never be solved in the average large family in America, and that is how many cars should the family have.

THE DESPOILERS

There are many despoilers
Abroad in the land,
And their crude depredations
We can't understand:
For they pillage dame nature
Without thought or care
Of the wild flowers blooming
In beauty so rare.

They have no thought of others
Who passing might view
The fair flow'rs by the wayside,
As hundreds would do;
With a hand that is ruthless,
Shrubs, flowers and shoots,
They persist in up-pulling
Them all by the roots.

But these motoring brigands
Are never content
With destroying the beauty
That heaven has sent;
For they steal from the farmer
His choice ripened fruit,
And if he should object, he's
"A stinky old brute!"

You may say they are thoughtless
And mean nothing wrong,
But it's simply plain thieving
The whole way along—
They're despoilers of beauty
That others should share,
They've been rated as vandals
But don't seem to care.

Officials who are starting out to kill the dogs that run around at night. Those officials will probably be surprised at what they find out at night in their meanderings after dogs.

When a British judge is first elevated to the bench he has to provide himself with seven different sets of robes at a cost of about $2,000. And if his campaign expenses compare with the cost of judgeship primaries and elections in Pennsylvania, there isn't much profit left for the man who is elected.

Some college students at Pittsburg have decided that two persons can live on a minimum income of $2,000 a year. We believe college students should be optimistic, but the colleges should be practical also.

A railroad reports that it lost 31 cents on each dining car meal served during the past year. Those who buy the meals and eat them will never believe a statement of that kind. To them a dining car meal looks like a million per cent profit to the railroad.

A farm is rapidly becoming a body of land entirely surrounded by politicians.

We still talk about the "walks of Life" though there aren't any now. The trades and professions grade up from flivvers to limousines.

A man discharged his butler and the next day the man was arrested and his home raided of $50,000 worth of liquors. That is getting even all right, but the man should know his butler better and not have anything that the officers can get. Butlers are dangerous when they are fired.

We have read of a man who gave his wife $1,000 to have her hair bobbed. Now she is spending the money to keep it in shape after it is bobbed.

It is a peculiar commentary on our present state of civilization that a man never gets time off for good behavior until he has been given time for bad behavior.

Apparently the best girlish figure is the boyish form.

We wonder whether those Communists members of Parliament who imprudently demanded Sacco and Vanzetti be released, ever stopped to consider that if their cases had been tried in England they would have been a closed incident about two weeks after conviction.

In order to keep water from freezing on your windshield in winter cut an onion in two and rub it on the glass. Why not try rubbing an onion all over the machine. It might prevent something.

Time was, and we recall it very well, when garters were among the unmentionables, but at the present time there isn't anything in the classification of unmentionables.

Some fool philosopher has said that a good job is one where you can get the reputation of thinking when you are only killing time. We hope that this particular smart thing isn't read generally by those who work. We know some people who have good jobs and probably don't realize it.

Some really enjoy an orange and some are afraid to spread it on their faces.

Massage will reduce flesh. It nearly alaways keeps the person administering it in good trim.

An efficiency expert is a man of few words, but bless your soul how he does harp on those few.

HAD IT COMING

The young man, having been accepted, was advised to "see papa." In fear and trembling he entered the den of what he considered the paternal "lion."

"If you please sir," he peeped in a small, wan voice, "your daughter has just promised to be my wife."

"Huh!" growled the old gentleman, "well, what of it? You might have known something would happen to you hanging around here seven nights in the week."

There was a young lady named Hall,
Whose shanks were deplorably small;
But she said with a smile:
"They'll do for a while;
They're better than no shanks at all."

Whenever we hear a man loudly proclaim he "owes everything to his mother" we sometimes wonder whether he has ever made any effort to wipe out part of the debt.

A small town is a place where a man passes up a safety razor to spend four hours Saturday evening in a barber shop reading the Police Gazette.

When one observes what some chaps accept as food for thought the deduction is they must be on a strict diet.

One of the funniest things one sees these days is plus fours on minus twos.

Kansas Philosophizes.
No Gangs Out There.

By ARTHUR BRISBANE
(Copyright, 1927, By N. Y. American, Inc.

Newton, Kan., April 21—Coming through big Ohio farms yesterday on the Pennsylvania "Manhattan Limited" bound for Chicago, a pond, big or little, indicated the low spots in the fields. Here in Kansas, the wide fields are enormous lakes, above which the Santa Fe fast train. "The Chief," travels toward the Pacific on a high, heavily ballasted roadbed. The only important news out here is "flood news."

The boiling, muddy water of the Mississippi rise higher and higher. Women and children are removed from danger, men remaining, piling up sand bags to protect weakened levees. The destruction of property will be great.

We intend to plod along here in our good old 1776 way. But if a Mussolini were running the country, who would doubt that he would use any amount of money, energy and engineering skill necessary to divert and store the dangerous waters near the source and use those waters on desert lands where they are needed. It is only a question of money and we have that.

This nation has lent eleven thousand millions in private loans to Europe recently, in addition to ten thousand millions lent by government in war excitement. Why not get excited about our own war on the waters?

Hay will be cheap this year on the farms, for crops will be heavy. After the farmer sells and jobbers get the hay, prices will change. Late plowing will be delayed and wheat growers worry worry about a too heavy "top growth."

Wheat grown suddenly too tall falls before high winds or heavy rains, and athletic young gentlemen, please notice: when the head of the wheat containing the grain is feeble. Too much straw means too litle wheat.

And too much muscle means too little brain.

Chicago is interested in "what happened to Jake Adler and Frank Gallelo," kidnapped then freed for cash. The two own "the Midnight Frollics" cabaret and are silent, wisely.

If a Chicago gang gets you, takes your money, lets you go to keep your mouth shut. Talk, and they "take you for a ride" and you don't come back.

Some think the "cabaret boses" were kidnapped because one displayed "too big a roll." Other say they had neglected to pay their liquor bills. The "Midnight Frolics," it seems, were not 100 per cent dry frolics.

Chicago's police suggest that "Egan's Rats," gangsters from St. Louis, kidnapped the boys. St. Louis replies that Chicago needs no help of that kind. Here in the wide, wet open spaces of the middle-west the bootlegger does not take his brother for a ride, and prohibition really works.

Unless inhabitants are misinformed, the western mind runs to peaceful philosophy. The Joplin News-Herald says, "As to street signs, read 'em and leap." And the Richmond Missourian quotes a philosophical lady as follows: "Kissing is about to be carried so far that every lady is likely to get so tired of it that it may go utterly out of fashion." The St. Joseph (Mo.) News-Press says: "The girls have responded nobly to the appeal for the observince of paint-up keeks."

MONEY SOMETIMES—

Costs more than we can afford to pay.
Talks too much about its friends.
Tells more about us than we care to have known.
Robs us of more than our enemies do.
Does more to ruin a home than poverty would.
Becomes a misfortune unless folks know how to boss it.
Gets us into more trouble than the party label can get us out of.

In Day's News

Miss Edith Wynne Mattison, who today will be presented with the gold metal for good diction on the stage annually presented by the American Academy of Arts and Letters, is an English-born actress who of late years has appeared almost exclusively on the American stage. She was destined in youth for the concert platform—her mother was a well-known English concert singer—but the drama claimed her and she made her first professional appearance in London in 1896. During her career she has appeared principally in Shakesperian parts, in the old Greek drama, and in classic English comedy of the Eighteenth century: One of her greatest successes was scored in the old morality play, "Everyman." In private life Miss Matthison is Mrs. Charles Rann Kennedy, wife of the well-known dramatist.

Ever'thing used t' be blamed on th' open saloon, but t'day it's "too much money," next t' stumblin' over a wheelbarrow in th' dark, th' worst thing is bein' rearrested at th' end o' a long prison sentence.

Dr. Crane's Editorial

GEORGE WASHINGTON

Two steam-roller biographies have recently appeared which are dedicated to the purpose of levelling down any pedestal the Father of Our Country may have heretofore occupied. They would make the amiable Parson Weems turn over in his grave with horror.

Of course any sensible person knows that no hero, dead for many years, was really anything like what he is pictured to have been. Legends grow up around him. Fact and fable commingle inextricably.

The important thing about the popular conception of a hero is not its representation of the real man, but its mirroring of the ideals of the people.

The fact that the popular conception of a national hero presents a man of finer qualities than the original, is in itself an indication that the people admire and hold praiseworthy high moral qualities.

Greece pictured an Achilles. America a George Washington. The characteristics of the people of the two lands is apparent in the qualities with which they endowed their heroes.

The George Washington of the Fourth of July oration of thirty years ago and of Parson Weems' book may have given a distorted picture of what the living, breathing man was like.

But it did give a vivid representation of the qualities the American people held of highest worth.

Many of the facts in the new biographies are apparently authentic, and have been slighted before.

In the main the facts are valid. It is the emphasis that is to be questioned.

New facts should be brought to light concerning great men, but they should be given proportionate emphasis in a picture of his life.

No man is as good or as bad as he can be pictured by relating actual facts, but without giving the other side its due emphasis.

It is to be questioned whether an age that cherishes each speck of dirt in the life of its heroes has advanced any over an unsophisticated one that pictures its heroes as super-men embodying high ideals.

The World AND THE Mud Puddles

The men of the American Expeditionary Forces in the Great War have very lively recollections of the transports. With few exceptions, they WERE transports made for the sole purpose of serving as transports, and nothing else. The merchant marine of the United States was practically nil at the outbreak of the War. There were very few ships flying the American flag that could be fitted as transports. Today it is different. On the Pacific, Captain Dollar is the head of a fleet of beautiful fast ships flying the American flag bearing his own name. While the Government has a right to call upon these ships in time of War, or even rumors of war, Captain Dollar at once at the outbreak of the Chinese trouble offered his boats to the Government, and the Government accepted.

The President Grant is the first of the Fleet to be requisitioned. In three and a half days after the President Grant docked at San Francisco, the Dollar Line turned her over to the United States Government ready for service. Captain Dollar has gone so far as to leave aboard a great many of the crew including the cooks.

"Wotta War!" commented a non-commissioned officer of the Third Regiment of Leather-Necks, when the Regiment was informed they would occupy part of the 200 staterooms on the President Grant. Colonel Davis himself is to occupy the bridal or presidential suite. The eighty commissioned officers and one hundred twenty non-commissioned officers are to get the first class state rooms, while the privates will have the tourist and second class cabins and staterooms. Yells of delight greeted the additional announcement that the Chinese cooks and waiters aboard the President Grant would remain and that the entire regiment will be served de luxe on the trans-Pacific trip.

"It is the best War we have enjoyed yet," said Colonel Davis. One enthusiastic leatherneck exclaimed, "The Third Regiment is the best outfit in the Marine Corps, and it is fitting that we should travel in style, even if we are going to a so-called War."

The Dollar Line has gone so far as to provide longshoremen to load and stow the gear aboard the liner. This is usually done by the service men themselves. Both the Fourth and Sixth had to load their own stores and field equipment on the Chaumont and the Henderson, and the personnel of these outfits had no staterooms with bath and Chinese to serve the split pea soup and baked beans.

The President Grant is one of the fastest vessels on the Pacific, being capable in forced draft, of maintaining a constant speed of twenty three knots an hour.

LUCK

I'm not one to sit complaining
Of my luck when it is raining
Or to growl along the highway
Just because things don't go my way.
I'm inclined to the opinion
That in this old world dominion
Life is rather like the weather,
Good and bad mixed up together.

And there's one thing I have noted
That this luck so often quoted.
So much sought for and expected
By which fortune is deflected.
Is a thing you can't rely on
Fasten down or keep your eye on.
And I'll say, though some may doubt it,
No one knows a thing about it.

What seems bad luck now may later
Prove to be a blessing greater
Than the good luck you had prayed for,
Planned and dreamed and hoped and played for.
And the fair luck of the minute
May have endless sorrow in it.
Just what fortune is bestowing
There's no certain way of knowing.

Though it's helpful to be lucky
It is better to be plucky.
Wise, industrious and willing
These will earn you many a shilling.
Luck's a good friend when he's kindly.
But the chap who trusts him blindly
Will be worsted in the tussle
With the boys who work and hustle.

CANADA'S LEGATION

Canada will not be deterred from housing in a fitting manner its representative in Washington by any feeling of resentment at the failure of the United States Government to make a corresponding provision for its representative at Ottawa. A large building on Massachusetts avenue has been purchased at a cost said to approach half a million dollars. There the Candian diplomatic envoy will be quartered with his staff. One of the Dominion newspapers recently pointed out the contrast between the policies, in this respect, of the Canadian and United States Governments, the American representative being obliged to content himself with rented rooms in an office building in the Dominion capital. Happily, the Canadian Government was not influenced by this complaint. Perhaps some day the Washington law-makers will awake to the anomaly of their present parsimony in the matter of embassy and legation buildings in foreign capitals.

Austrians Keep Bull Fighting Out Of Movies

(International News Service)

VIENNA, April 21.—Popular feeling against bull-fighting has banned moving pictures portraying the national sport of Spain from Viennese cinemas. A small riot was staged in a German film showing a bull-fight was thrown on the screen.

The people shouted against the sport and when a horse was killed rose and began to throw things at the screen. The manager restored order by promising to substitute another picture but when this was shown, by a misfortune of choice, it also had a bullfight scene.

The audience then destroyed the screen by throwing mistels and went to protest to the city authorities in a body supported by several members Austrian S. P. C. A.

The city authorities did not act but the cinema owners association decided to ban bullfight pictures.

Chinese Diplomats Behind In Salaries

(International News Service)

PEKING, April 21.—The decay of Chinese diplomatic missions in Europe, where the few remaining ministers are several years behind in their salaries, was described to the foreign office by Wang Chingchi returning minister from Belgium.

In Peking at present are the Chinese ministers to Spain, Sweden and Mr. Wang from Belgium. In addition, the minister to Austria closed up his legation and is enroute to China, his post having been abolished.

There remains on duty only the ministers in Paris, Germany and Switzerland, with subordinate secretaries in charge at the other important capitals of Europe.

These legations have not had any financial assistance from the Chinese government in at least twenty months and minister after minister has appealed to have a successor appointed so that he might return home.

New Haven Still Hunts For Gold

(International News Service)

NEW HAVEN, April 21.—Holes in the earth continue to appear in Money Island, just outside of New Haven, where rumor had it that Captain Kidd once buried his treasure. Youngsters are the chief diggers, it is believed, but no one appears certain as to how they get out to the island.

New Haven's marine life has dwindled to coal barges and tankers, a few freighters bearing automobile parts from a plant on the Jersey meadows, and supplies for chain stores whose warehouses are down the harbor.

But pirates still exist, as they did in Captain Kidd's day, and New Haven has a marine police precinct watching for the pirates and for rum runners who persist in poking their craft into the harbor.

Says Bootleggers Word Like Gold

(International News Service)

ALBANY, N. Y., April 21. — A bootlegger's word is as good as his bond, according to Andrew McCampbell, deputy prohibition administrator of the Albany district.

McCampbell, who knows more about bootlegs and their business than any other man in this part of the state says:

"I will accept the word of any bootlegger as his bond. I do that all the time."

McCampbell has been running down bootleggers in this part of the state for the last eleven months. He estimates he has caused the arrest of upwards of 1,000 rum runners in that time. He added:

"In almost every instance these men, following their capture and arrest, have been released on their word of honor to appear on a certain day for arraignment before the U. S. Commissioner.

"In only two instances have the men so treated violated the confidance I improved in them. They were later arrested."

SKINNY!

"Now You Listen to Me! I Know What's Wrong With You and Others Like You—Girls Too."

"And I'll tell you how to get some good, solid fat on your bones!—and you'll look and feel 100% better.

"Once I was skinny like you, only worse,—weak, nervous, sickly,—and ashamed to look at people! I was constipated. Got no lasting relief from pills, powders or laxative waters. One day I consulted a young physician who surprised me,—he said I was a victim of system poisoning (*Toxemia*) which kept me thin and sickly, lacking in appetite,—to beware or I would soon be crippled up with rheumatism or some other dangerous malady!

"He woke me up, I'll tell the world! Advised me to begin taking PARTOLA, the internal antiseptic and laxative. This sure did the trick. My bowels and liver started working regularly, my appetite increased, I slept soundly, put on weight,—and that's what you'll do too if I have to get PARTOLA and make you take it!"

And so the story goes. If you who read this be thin and anaemic, start taking PARTOLA tonight. Benefit by this hypothetical case and good advice. Get your share of sturdy flesh Nature intended you to have, by eliminating the poisons that help keep you thin. All good druggists sell regular box 30¢, double size 50¢.

Memorial Monument To Honor Pat Moran

(International News Service)

FITCHBURG, Mass., April 21.—Honors usually accorded to soldiers, sailors and public servants will be given the memory of the late Pat Moran whose place in baseball's hall of fame was firmly established when he piloted the Cincinnati Reds to a pennant if a movement now underway here proves acceptable to the city. Moran was born and raised here.

It is the plan of a group of Moran's admirers to erect a memorial monument at the junction of three streets, along the Mohawk trail in that section of the city where as a youth Moran first learned the rudiments of the national game. The site proposed is one of the most heavily travelled places in the city and would permit travellers driving over the trail to obtain an excellent view of the memorial.

It is proposed that the city donate the site for the monument and action will be requested at a future meeting of the city council.

Name Soviet Leaders To Moscow Council

(International News Service)

MOSCOW, April 21. — Elections to the Moscow Soviet, just finished reveal a number of new names on the city council. How important the control of the capital city is considered may be estimated by the fact that none other than Joseph Vissarionovitch Djugashvili, better known as Stalin, is on the list of municipal administrators.

Probably no other great city in the world has so highly varied a roster of city fathers and mothers as has Moscow. This year appear as members of the Moscow Soviet the customary row of obscure workmen, and then the names of Stalin, Kalinin, Voroshilov and Rurzutak, all belonging to that all-highest instance of the Communist Party, the Political Bureau. And alongside these appear the names of Alexander Bogdanovich, opera singer from the Grand theater of M. Narakoff, actor of the Little theater, and of Mme. Kazanoffskaya, actress from the Grand theater.

But exceeding all these names in interest is the name of George Vassilivitch Chicherin, Peoples Commissar for Foreign Affairs, sandwiched in on the register of municipal councillors between the name of a printer and the name of a blacksmith.

to the doctor it's only an order

to you it's only a piece of paper

to us it's our good name and reputation

A matter of routine to the doctor to write a prescription; important in the sense that it represents the result of his long training and his extreme care in the guardance of your health. To you it's only a piece of paper upon which meaningless words are written—Latin, which you do not understand, but in Latin because Latin is a dead language and not subject to any change or misinterpretation; to us it's our good name and reputation. And we do enjoy the best name and the best reputation as professional fillers of prescriptions in this vicinity. Bring all prescriptions here.

WHO SAID "LUCK"?

Traces Of Ancient Man Are Found In Ruins Of Ancient City Of Corinth

SYRACUSE, N. Y., April 21. — Traces of the well-known middleman have been found in the ruins of ancient Corinth, according to Prof. T. Leslie Shear of Princeton University, who has directed the underground exploration for the ancient Greek civilization for several years. The wealth and luxury that was an outstanding feature of the legendary city was gleaned by the inhabitants from handling goods that entered Corinth and passed on to other cities of Greece, he said.

Professor Shear was a speaker before the Syracuse Chapter of the Archaeological Institute of America on "The New Excavations of Corinth" at the University Club.

His talk was illustrated with slides of the work being conducted in the Grecian city.

Among the pictures were views of fine heads of statues that adorned the great Corinth Theatre, which he exhumed from 40 feet of accumulated debris. Strangely enough, most of the heads showed that their subjects had worn red hair, so it probably was believed in the eleventh century before the Christian era that "gentlemen prefer blondes."

By using colored slides Professor Shear portrayed clearly the fresco paintings around the wall which bounded the arena and stage of the theatre. That theatres was often the scene of wild and gallant gladiatorial feats, he explained.

French Teachers Demand Increase

PARIS, April 21.—Professors in French secondary schools treaten to strike unless the Department of Public Instruction increases their salaries.

The highest salary to which a professor in a licensed boys' school in the Paris district can hope to attain is $1,700 annually. In the girl's school the limit is $1,000.

Seven of the eight professors' delegates on the Superior Council of Public Instruction have resigned to call the attention of the nation to the conditions in the profession.

MRS. DAVIS' DIZZY SPELLS GO

"10 Years of Backache, Rheumatic Pains and Swollen Legs Yield to MATAMEL."

Lancaster, Pa.—Another woman tells her story for the benefit of sufferers from certain forms of chronic inflammation of kidneys and bladder. Mrs. N. M. Davis, well known resident of 814 N. Shippen St., this city, stated:

"For 30 long years I have suffered as only one troubled with this wretched sickness can suffer. Backaches? Why for 10 years I did not know what it was to wake up without one. I was disturbed at night. My legs and feet were always swollen, my strength was slowly ebbing, and rheumatic pains kept me in misery. I was all worn out with headaches, dizzy spells and weakness.

"Then I heard about Matamel, that wonderful sap of the Mexican Maguey Plant. Matamel has brought me relief from my trouble. I eat better, without gas. I have no more backaches; the swellings have gone down. I hardly know what a headache or dizziness means any more. I feel years younger, and I give Matamel my thanks."

What Mrs. Davis says, thousands have said before. A quarter million cans of Matamel have been brought from Mexico to aid sufferers here. Why not give Matamel a trial, yourself? It cannot harm you, and it may be just the thing you need. It is highly recommended by:

308th Ammunition Men To Organize

Men Who Served In This Train To Meet This Evening

A meeting of members of 308th Ammunition Train is planned for 8 o'clock Friday evening, April 22, at the Veterans of Foreign Wars Home on Neshannock avenue. The meeting is called for the purpose of forming a permanent organization of the 308th and all members are requested to be present.

The various members of the 308th who have been approached upon the matter are highly in favor of the move says, Ivor V. Davis who is one of the sponsors. There are reported to be about 100 men in and about New Castle who served in the 308th ammunition train and it is possible to form quite a live organization.

To make the organization possible it is requested that all who can possibly be present Friday night to come and give the move a boost. The idea was brought up at a meeting about a month ago and early in the week several of the fellows got together and decided to call the meeting for Friday night.

An effort is being made to get Col. Thos. Fitzgerald, superintendent of the Pittsburgh Railways Company to be at the meeting. Col. Fitzgerald was a former commander of the unit.

Coke Production Shows Decline

(International News Service)

CONNELLSVILLE, Pa., April 21. A decline of 11,200 tons in the output of coke in the Connellsville region was recorded last week, the International News Service weekly survey today revealed.

The sharp decline was taken as an indication of the depressing effect of the bituminous suspension in industries closely related to the manufacture of coke. The decline since the beginning of the suspension April 1 has been 15,590 tons in the weekly output, the total for the week of April 2 being 149,420 tons and that for the week of April 16 being 133,830 tons.

Operators are maintaining a policy of regulation of working time rather than blowing out ovens. Some plants have been operated on a five-day schedule, and some have resorted to a four-day week. At a few plants the schedule time has been cut in half.

Otherwise the coal strike has not affected the coke region, there having been no effort to unionize the industry.

The $3.50 price for spot furnace coke which has ruled for several weeks has given way to a market price of $3.25. Spot foundry is quoted at $4.25 to $4.75.

BAKE SALE

The Ladies Missionary Society of the Princeton Presbyterian church will conduct a bake sale at the C. Ed Smith Hardware store on East Washington street, on Saturday, April 23, for the benefit of the missionary society. There will be plenty of eats on sale.—Local 1t.

BLIND GIRL TO GET DIPLOMA

Will Be Graduated From Waynesburg College In Music Course

(International News Service)

WAYNESBURG, Pa., April 21.—Among the members of the 1927 graduating class of the Waynesburg College School of Music is a young woman, who inspired by the example of Helen Keller, has overcome the handicap of being blind since childhood and will receive her diploma this spring. The blind girl Miss Georgia May King, of Deer Lick, Greene county, will be graduated in piano and organ. Miss King will give her senior recital here April 22 and because of the great interest taken in the girl's battle to secure an education in music and the arts a capacity audience is certain to be present for her recital.

Miss King has been unable to see since infancy, being barely able to distinguish when the sun is shining. She has never been able to read a word by sight. Learning how Helen Keller overcame the handicap of blindness, Miss King became determined to win an education in spite of her physical handicap. She received her preliminary schooling in the Pittsburgh Institute for the Blind.

She showed marked musical talent and began the study of music by the Braile Method. By using the Braile system music she has been able to develop her talent in music. Not content with a musical education she will endeavor to get an A. B. Degree in Waynesburg College, using textbooks in the Braile System.

Better Business Bureau Favors Daylight Time

Action Taken At Meeting This Morning At Greer Building

Members of the Better Business Bureau of the Chamber of Commerce, representing mercantile establishments of the city held a meeting on Thursday morning at 10 o'clock in the Greer building, to discuss the matter of daylight savings time in their business houses.

After a lengthy discussion it was voted as a matter of co-operation with the industries of the city to adopt the daylight savings time for the summer months.

It was voted also to have a committee appointed to confer with the heads of local industries to have the matter of time for 1928 amicably settled to the best interests of all concerned eliminating the differences that have developed last year and this.

Farmers Burning All Corn Stalks

Purpose Is To Save This District From Ravages Of Corn Borer

"This period of clear, drying weather is just what the farmers have been awaiting," said County Agricultural Agent H. R. McCulloch today. "In our effort to get all corn crop refuse cleaned up by May 1 we are absolutely dependent on the weather. If good weather continues we will get this job done in time."

Lawrence county farmers are quite serious in their intention to allow the corn borer no refuge in this county. They are missing no bets. As fast as the land dries up, corn stubble is being thoroughly turned down. Refuse stalks about the premises are being burned. Continued fair weather will see acres of corn shocks, which could not be properly handled last fall, going into smoke.

"Tell your readers" said McCulloch, "that the farmers expect their town and city cousins to do their bit by pulling and burning all sweet corn stalks."

Order Reduction In Freight Rates

(International News Service)

WASHINGTON, April 21.—To enable western live stock producers to widen their eastern markets, examiners of the interstate commerce commission today recommended that the commission order the railroads to reduce the freight rate on cattle, hogs and sheep from Chicago to New York from 56.5 cents per 100 pounds to 48.5 cents, with proportionate decreases from the New York basing point to New England territory.

Freight rates on fresh meats and packing house products from packing houses in so-called central territory to the eastern seaboard and New England are not unreasonable, the examiners said, and the present rates should not be disturbed.

Girl Scout Council To Meet In Library

Aching, Swollen Feet

Money Back Says McKee's Kut Rate Store, Eckerd's of New Castle, Inc., If Emerald Oil Doesn't Do Away With All Soreness, Swelling and Distress in 24 Hours.

No sensible person will continue to suffer from those intense agonizing throbbing foot pains when every well stocked drug store has Moone's Emerald Oil and sells it with an absolute guarantee of satisfaction or money back.

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture and pray for quick relief. What's to be done?

Two or three applications of Moone's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And best of all any offensive odor is gone for good—it's a wonderful formula—this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually for reducing varicose or swollen veins.

McKee's Kut Rate Store, Eckerd's of New Castle, Inc., and every good druggist guarantees Moone's Emerald Oil to end your foot troubles or money back.

Lewis Refuses To Comment On Hard Coal "Walk-Out"

(International News Service)

PHILADELPHIA, April 21.—John L. Lewis, president of the Union Mine Workers, refused to comment today on the possibility of a walkout of the anthracite miners next fall in sympathy with the bituminous coal miners now on a strike for wage adjustments.

Lewis declared the soft coal strike "is getting along about as well as any strike that is the same stage as this."

Questioned regarding his visit here the head of the union miners replied, "Oh, just a few legal matters." He conferred today with William Glascow, counsel for the United Mine Workers.

Adams County Leads State In Apple Shipping

HARRISBURG, April 21—Pennsylvania apple growers shipped 3919 carloads of apples in 1926, over 60 per cent more than in 1925 says the bureau of markets, state department of agriculture. Most of the cars were shipped durinr the last four months of the year. The large crop last fall is revealed by comparing the 3341 cars shipped during the fall of 1926 with 1786 cars in the same period of 1925.

Adams county still holds the title of "Leading Apple Shipping County" which it gained in 1925 after Franklin county had held the lead for three years. Shipments from this county last year reached a total of 1857 cars as compared with 952 in 1925. Biglerville, which shipped 728 cars last year, was the heavies: loading point in the State. Other points in the county which shipped over 100 cars are , in the order of their importance: Gettysburg, Guernsey, Bendersville, Seven Stars and Gardners.

Franklin county is second on the list with 1273 cars to its credit, over 40 per cent more than were shipped in 1925. Waynesboro was the heaviest leading point in the county with Chambersburg, Scotland, and Quincy each shipping over 100 cars.

Cumberland county held third place which it has held for the last four years. In 1926, 307 cars were shipped from points in the county, 117 cars more than in 1925. About 40 per cent of the shipments were from Shippensburg and the rest from eight leading points.

Fourth on the list of leading apple shipping counties is York county which shipped 174 cars last year as compared with 125 cars the preceding year.

Wyoming county comes fifth. Last year 46 cars were shipped by growers in the county.

Other counties in the order of their importance are: Bedford, 33 cars; Snyder, 26! Centre, 23; Union, 23; Lycoming, 19 cars.

Student Prince Most Elaborate

Twenty Three Songs By Composer Of "Blossom Time" Feature Show

"The Student Prince" operetta to be presented at the Scottish Rite Cathedral on the evening of May 3, is one of the most elaborate productions that the lavish Shubert organization has ever presented. There are twenty-three beautiful songs by the talented Sigmund Romberg, composer of "Blossom Time," presented by a cast of trained singers. The scenery with which the production is staged is in keeping with the well known Shubert tendency to give stage settings that add to the beauty and appeal of the productions, which they sponsor.

The reserved seat sale for the show got under way today with a rush, that bodes ill for the individuals, who put off the matter of purchasing tickets to the last moment.

Rotary Club Elects Directors

GROVE CITY, Pa., April 21.—The Grove City Rotary Club held its weekly noon-day meeting yesterday at the Penn Grove Hotel. Louis Flint, of Sharon, entertained the club with presentation of original poetry.

The results of the election held last week for the board of directors was announced, the following men being chosen to act on the board; D. F. Black, B. A. Montgomery, Dr. W. E. Purvis, Joe Ketler, Gus Forquer, P. R. Cleeland and R. E. English.

R. H. Van Ness was taken into the club as a new member. Prof. H. M. B. Lehn, of the High School, giving the instructions.

Motorist Hits Boy On Long Avenue

A. F. Patterson of 811 Wilmington avenue, reported to the police last night, that while driving west on Long avenue, near the Strand Theatre, that he struck a boy about ten years of age, as the latter ran out in the street in front of his machine. Mr. Patterson took the boy to his home on Charter street, but did not learn his name. He was apparently not seriously hurt.

Give Baccalaureate Address On May 29

Dr. C. H. Holcomb, pastor of the First Christian church has been invited to deliver the baccalaureate address for the Union Township High School on May 29.

An invitation has been extended the senior class to have the services in the First Christian church on this occasion.

POLICE MAY HAVE MISSING LICENSES

There is at present quite an accummulation of automobile licenses at the city police station, which await the owners. These have been found by officers and others on the streets of the city and turned into the local police headquarters for the benefit of the owners. It will pay persons who have lost a license plate to visit the police station and look over the plates now being held there, pending a demand by the owners. There is no expense connected with the recovery of a plate at the police station.

TAKE PART IN FRATERNITY DEBATE

F. Williard Cameron of New Castle, and Harold Bailey of New Bedford, students at Grove City College, were representatives of Pennsylvania students at the debating tournament held at Lansing, Michigan, last week.

This was the annual national tournament of the Phi Kappa Delta Debating Fraternity and the question for debate was "Modification of the Volstead Act."

High school—Mary McLaughlin, Marybelle McClelland, Fannie Keys, Russell Byler, Mary Smith, Anson L. Winters, Hugo Lukkarila, Joseph Martin, Wendall McConnell, Harold J. Colton, supervising principal.

NEWS OF TOWN AND SCHOOL

Vacation is over and the students have again returned to the round of their studies. Monday started them on their last six weeks of schol life and everybody is very glad. Most of the students and also the faculty enjoyed their vacation very much.

The long test of training has now started for track and everyone seems to have adhered to it except a few who have dropped out.

Class C shows a lot of talent and interest and in starting practice it flashed several promising runners. The pole vault seems also to be clinched by class C.

Class B shows quite a few promising men in the shot-put, discus, javelin, pole vault, high jump and also in the mile and half run. But there is a shortage of sprinters for this class.

Class A which never has had many men out for track, has more out this year than ever before. But they need more, the ones who are out show great promise for long distance runs.

Sometime ago the Dramatic club went on a pleasure trip to Sharon, where they saw and enjoyed Ben Hur. They evidently did enjoy themselves for this week they planned another trip. They journeyed to New Castle and saw the well known play "Abie's Irish Rose" at the Scottish Rite cathedral.

Comments on the beauty and the structure of the building were made as the club arrived early and inspected the cathedral before the opening of the play.

The students have found another way of amusing themselves during the noon hour, that is by playing baseball. The basketball games were enjoyed by many and now they are enjoying the baseball games.

At last the coming of spring brought a change in Bessemer high school grounds. Most everyone likes to cast off their winter clothes and get into new ones; human beings are not the only ones, for Mother Nature has wrought many wonderful changes also. She is very busy just now dressing Bessemer up to make it a more beautiful place in which to live. In order not to be outdone the high school has decided to improve its school grounds. The ground has already been plowed and graded. A layer of rich dirt is to be spread over the top, then the grass seed will be sown. The students are interested in the work and are willing to do their part to make their school grounds more beautiful.

The Girl Scouts lately have been very busy memorizing Girl Scout songs. They are a hard working, happy group of girls. Plans have been made for a Girl Scout hike and unless the April showers hinder, they will fulfill these plans before long.

The history club members are getting ready to enjoy their party on Friday evening. Special guests of the evening will be Mr. Eales and Mr. Colton. A historical picture will be shown as part of the entertainment of the evening.

At present the dramatic club is studying modern plays. The seniors have chosen "Come Out of the Kitchen" for their class play. Tryouts will be given and the cast will be chosen during this week. The and the result will doubtless be a snior class has splendid material well chosen cast and a good production.

"Mantrap," a Victor Flemming production, will be the movie for Saturday evening. This is a very sensational play of the north. Clara Bow is the heroine.

The Westminster Guild girls met at the home of Mrs. Throop on Monday. The purpose of the meeting was to install the officers for the coming year and to plan for some way to earn money to send a number of girls to a summer conference. Mrs. Throop took charge of the meeting and the installation. After this a letter was read from Miss Edna Tait of Sitka, Alaska. A delicious lunch was served and plans were made [illegible] home of Margaret Carlson in May.

Russian Musicians To Honor Beethoven In Big Centenary

(International News Service)

MOSCOW, April 21.—Under the general leadership of a special commission headed by the Commissar for Education, Lunacharsky, the Russian musical world is preparing for an elaborate celebration of the Beethoven's centenary.

The central feature of the anniversary will be a public meeting, devoted to Beethoven's memory, in the State Opera House; and a series of free Beethoven concerts of symphonic and chamber music will be given in various parts of the city. The memory of the composer will also be preserved by a play, "The Moonlight Sonata" which has been written especially for the occasion and depicts the lonliness and personal tragedy of Beethoven's life. The play is provided with musical accompaniment in the shape of excerpts from Beethoven's work's.

Russia will send a delegation of six persons, including the distinguished composers, Alexander Glazounov and Nikolai Myskovsky, to attend the musical historical congress which opens in Vienna on March 26 in connection with the Beethoven centenary. One of the younger Russian pianists, Elinson, has already played Beethoven's thirty-two sonatas in a series of five piano recitals.

The Persimphans, one of Moscow's leading orchestras, is devoting five of its fifteen concerts during the present season to the works of Beethoven.

75,000 Young Reds In Soviet Colleges Get War Training

By H. R. KNICKERBOCKER
International News Service Staff Correspondent

MOSCOW, April 21. — Seventy-five thousand Soviet college students are receiving military training in 180 institutes of higher education throughout the country announces Joseph Unschlicht, assistant Commissar of War, in a speech setting forth how thoroughly the educational system has responded to the government's demand for militarization of the Russian youth.

Each of these 75,000 students devotes at least 180 school hours a year to military training, and in the summer gives two months to practical military exercises in camps. Unschlicht described the military courses as highly satisfactory, promising to provide a high grade reserve of officers for the Red Army.

According to the Soviet military authorities, the Red Army has not been increased beyond the 600,000 men to which it was reduced in 1924, despite the belief which rules here that foreign countries, probably Poland in the lead, may attack the Soviet Union in the near future. But, Unschlicht points out, the Red Army has been materially improved in every respect, in its feeding, its technical equipment, its pay and its personnel.

Dental Officials Take Up Study Of "Trench" Mouth

(International News Service)

BOSTON, April 21.—So rapid has been the increase in the number of cases of the so-called "trench mouth" disease in this section of the country that dental authorities are making extensive investigations and efforts to check the spread.

Evidently a back-wash of the war period, where conditions in the fighting areas aided materially in the spread of this disease, its presence was not unusually noticeable until recently. With reported outbreaks of the disease at Smith and Amherst colleges intensive investigations were undertaken.

The Tufts College Dental School undertook a study of the disease and examine more than 1,100 months. Their investigations found that the number of cases was increasing with alarming rapidity.

The college report revealed that "trench mouth" seems to exist mostly among business men, students and housewives between the age of 20 and 30 years. It is an infectious disease, contracted by personal contact. The more common ways of contracting are kissing, and eating and drinking from utensils used by infected individuals. Some cases are known to have been contracted merely by using public telephones.

Doctors and good pharmacists know that Cod Liver Oil is full of vitamines that make flesh, create appetite, build up the power to resist disease and puts good solid flesh on skinny men and women.

But it's repulsive in taste and smell and nearly every stomach rebels against it.

So now men and women who keep up with the times are taking McCoy's Cod Liver Oil Compound Tablets—rich in flesh producing, health building, strength creating vitamines and as easy to take as candy.

Try them for 30 days if you want to fill out those scrawny hollows in chest, cheeks and neck and gain strength and vigor. And bear this in mind if they don't help you in that time any druggist anywhere will return your money. But demand McCoy's 60 tablets 60 cents.

Reading Poor Farm Grows To 50 Acres

Inmates Of Berks Home Will Save Money For County By Employment

READING, Pa., April 21.—A controversy lasting two months between the board of poor directors of Berks and the board of prison inspectors regarding the amount of land to be given for farming by jail inmates this year was amicably settled today. Instead of five acres of general farming for the jail only 50 acres will be given the convict-farmers for potato growing, the potatoes to be distributed to the poor directors for the almshouse, the jail, the boys' home, a county institution and other charities.

The poor directors will save money for the prison board by giving the convicts the use of farm implements instead of requiring new machinery to be bought.

The settlement followed an offer by Miss Mary Archer owner of a big farm near the city to give the jail board the use of 25 acres of land for the use of the convicts but this offer will not have to be accepted now that peace has been declared between the two boards.

Officers Shoot Dogs At Large At Night

MERCER Pa., April 21—A squad of officers with pump guns have been at work in Western Mercer county towns shooting all dogs found running at large after sundown in fulfillment of the promise made a week ago by Harry Higbee of Stoneboro agent of the bureau of animal husbandry of the state for this county and Crawford.

The law provides that all dogs found at large after sunday whether licensed or not may be shot without legal resources by the officers.

The amount of sheep killed and the danger of rabies are two factors in drawing this deadline and intending to stick to it, Higbee says.

It is the intention of Higbee and his men to visit every town and township in the county and now that travel conditions are favorable will be enabled to cover a large tract of territory in a night.

Of course the agents are not issuing any advance schedules but promises to give Mercer a thorough cleaning up.

Lost Searchers For Art Found

NEW YORK, April 21.—Eight months of silence concerning the safety of an art expedition, believed lost in the vast little known parts of Asia, were broken today with the receipt of a cablegram announcing that Nicholas Roerich and his Roerich American art expedition are in Mongolia.

The party, says the message from Maurice Lichtmann, vice president of the Roerich museum, is safe. The message was filed at Urga.

The purpose of the expedition is to obtain a panorama of paintings in the east of parts never before painted by a western artist.

Boerich also planned to obtain rare collections of art treasures of the east.

When months passed with no word from the expedition Lichtman left for central Asia in search of news.

The expedition's original plan provided a route through India, Tibet and central Asia and finally through Pekin to America. The expedition was forced, however, to move through Siberia, Roerich finally reaching Moscow.

A director of the Roerich museum met him in Moscow and the route was changed to Abyssinia.

Should Proceed With Caution On Newly Oiled Road

State Highway Department Warns Drivers Of Conditions In County

State Highway Department men who are overseeing the oiling of the old macadam roads near New Castle this week wish to call attention to motorists that they should proceed with caution when approaching and traveling on the roads.

A red flag means danger, and a caution sign means caution, says the chief engineer of the local office of the Highways Department, yet many seem to think that they both mean full speed ahead.

A car bearing New Jersey license approached the place where the oiling was being done on the New Castle-Slippery Rock road and in spite of red flag, caution sign and warning of a watchman, they endeavored to swing around two cars waiting for an opportunity to pass the place where the oil was being poured and hitting the hot, slippery tar, they nearly ran down the watchman and finally landed upside down in the ditch. No one of the passengers was much hurt, but the car was seriously damaged and they might have been killed.

Anyone who has attempted to chase a cake of soap around on a bathroom floor or catch a greasy pig on the Fourth of July should know that hot tar on a road cannot be compared with those pastimes for slipperyness, especially before the limestone chips are placed on top.

Thus "Caution" means "take care" and a red flag means danger, and all who travel the roads now being oiled should not have the lesson impressed as vividly upon their mind as our friends from New Jersey did yesterday.

The roads being oiled near New Castle are on the Youngstown road, the Slippery Rock road and the Eastbrook road. The oiling was started on Monday, and if the weather permits should be all finished by the end of the week.

Boy Scout News

TROOP 15

A meeting has been called for the Pine Tree Patrol of the First Christian church troop 15, at the church, for Friday evening, at 7:30. Scoutmaster Sidney Smith and Assistant Scoutmaster Ralph Montgomery will be in charge of the training of the patrol for the coming Camporee.

This patrol was the first of all in Lawrence County to register for the Camporee. By all appearances the patrol not only intends to hold the honor of being the first to enter but expects to be the first in the winning.

Scribe—George McCracken.

FIRST REGISTRATION

Rober Howe, a member of the Highland U. P. church troop 18 has the distinction of being the first to register for the summer camp season of 1927. The camp is run by the Lawrence County Council and has been very successful. Due to the large number of scouts who wish to attend camp for a period the rush is very great at the last moment. Robert is to be given very much credit for his thoughtfulness in aiding Headquarters in this way and for his realizing what camp will mean to him. Other registrations are expected soon too, as the scouts do not wish to miss the camp fun.

Dr. R. E. Neighbor To Visit In City

Noted Bible Conference Leader, Guest Of Rev. And Mrs. H. G. Woodrow

Dr. R. E. Neighbor and son, R. E. Neighbor, Jr., and daughter Miss Marie of Chicago, Ill., will motor to this city next Tuesday from Newark, N. J., where they will be the guests of former's sister and brother-in-law, Rev. and Mrs. H. G. Woodrow of Wilmington avenue.

Dr. Neighbor is one of the outstanding ministers of the Baptist denomination. At the present time he is engaged in evangelical work and conducts Bible conferences throughout the United States and Canada.

Last winter he conducted a three day Bible conference in the First Presbyterian church of this city. While here he made a host of friends who will be pleased to learn of his return to New Castle.

Councilmen To Return Home Today

City Councilmen Tyler, Davies and Genkinger and Superintendent of the Collection of Garbage Howard Phillips are expected to arrive here from Buffalo today. The councilmen went to Buffalo to inspect an incinerating plant.

Here's One Result Of An Attempt To Mix Booze And Gas In An Auto

As the warm Summer-like days bring out more and more motorists on the streets and highways accidents will become more numerous. The cause of many accidents is the mixing of booze and gas. If drunken drivers could be kept off the road accidents would be reduced to a minimum. S. J. Williams of the National Safety Council avers that the drunken driver is a greater menace to society than a gunman.

Mayor And Chief To Witness Game

Police Activities Are Slow And Officials Get Early Start

City police made no arrests last night which gave Mayor William Dunlap and Chief of Police Heury Dysart a chance to leave early for Pittsburgh to witness the Bucs-Reds ball game at Forbes field. Among others who went were Alex Silverman, C. Ed Smith and Jacob Perelman.

Train Schedule Changes Sunday

To accommodate local commuters to Pittsburgh, the Pittsburgh and Lake Erie Railroad is announcing a change in the schedule of local trains out of New Castle. This will take effect on Sunday, April 24.

Chinese Brigands Cut Railroad Line Is Latest Report

French Engineer Held Captive And Ransom Demanded, Woman Missionary Missing

(International News Service)

PARIS, April 21.—Chinese brigands have cut the railroad line between the frontier of Indo-China and Yunnan-Fu and have captured a French engineer and are holding him for ransom, according to a report to the foreign office this afternoon.

Miss Mary I. Craig, of Philadelphia, a missionary, was kidnapped by brigands in Yunnan-Fu last week, and her release has not yet been reported.

Law Makes Baby His Grandma's Son

SAN FRANCISCO, April 21.—The three-year-old shoulders of Billie E. Ramsay bowed beneath a heavy responsibility. The state of California through the efforts of Judge Frank J. Murasky changed his name to Billie Thames, made him the son of his grandmother, Mrs. Nettie Thames and thus—if you want to regard it that way—made him his own father.

Mrs. Thames testified she had taken care of Billie since a few weeks after his birth. His parents were separated according to testimony. His mother Mrs. Thame's daughter, is in Reno and the whereabouts of his father Frank, is unknown.

Before the court took action Billie had a great-grandmother, Mrs. Antoine Switzenberger living at Eau Claire, Wis., But the court's change removed a generation and Mrs. Switzenberger is now merely Billie's grandmother.

Telegraph Office To Be Maintained On Battleship

During the mobilization of the Atlantic and Pacific fleets in the North River at New York between April 29 and May 16, the Postal Telegraph Cable Company will maintain a regular telegraph office on board the Guard ship of the fleet. Arrangements have been made to string wires directly to the boat from the shore and operators will be in attendance there throughout the day in order to assure prompt dispatch and delivery of all messages to and from the fleet's personnel.

American Marines In Nicaragua Kill Rebels In Attack

(International News Service)

MANAGUA, Nicaragua, April 21.—Three rebels and two bandits have been killed by United States Marines during attacks upon positions held by the marines in the past 48 hours, according to information received here today.

Bandits attacked the marines at Posoltega. The marines returned the fire, killing two and wounding many others.

Later another attack, believed to have been made by rebels, was directed against the marines defending the Pacific Railroad in the Posoltega district. The marines fired upon the attackers killing three and wounding one. The marines had no casualties.

BOY SWIMMER DROWNS

YOUNGSTOWN, April 21.—Fred Rotz, 18, of Lowellville, drowned yesterday attempting to swim the Mahoning river. Two companions succeeded in reaching the other bank but Rotz collapsed midway.

Pneumonia Fatal To Power Official

(International News Service)

CONNELLSVILLE, Pa., April 21.—Paul T. Kamerer, 37, superintendent of the laboratory of the West Penn Power company here, is dead at his home today, a victim of pneumonia.

Kamerer, who had been in the employ of the West Penn company for 17 years, formerly made his home in Greensburg.

DO YOU KNOW?

That Ford first cost is still the lowest in the industry. Inspite of improved carburetion, baloon tires as standard equipment, pyroxylin finishes and numerous other improvements; and although there are many cars and trucks today offering LOW COST OPERATION—THERE IS ONLY ONE LOWEST—and that ONE is Ford Transportation and Operation Cost.

Can't Eat, Can't Sleep, Man Wins Victory

"I had gas on the stomach so bad that I couldn't keep food down and used to toss in bed all night. After taking one bottle of Adlerika, I eat anything and sleep like a log."—R. C. Miller.

Adlerika is a compound of the best saline intestinal cleanser with glycerine, buckthorn, cascara and other gas-expelling and detergent elements. It is excellent for Intestinal Stasis, a disease due to modern ways of living and which is often the true cause of sour stomach, gas bloating, nervous dyspepsia and restless sleep.

Unlike most medicines, Adlerika acts upon BOTH upper and lower bowel, giving the intestines a REAL cleansing and bringing out old poisonous matter you never thought was in your system. Even if bowels move daily, you will be surprised how much more old matter Adlerika brings out which may have been causing all your trouble. In slight disorders, like occasional constipation, GAS bloating, indigestion or sick headache, ONE spoonful always brings relief.

Doctors Praise Adlerika

Dr. H. L. Shoub, New York: "Adlerika, in addition to its intestinal cleansing, checks the growth of intestinal bacteria."

Dr. A. C. Curl: "I prescribe Adlerika with highly satisfactory results."

Dr. J. Weaver: "In my 50 years' practice, I have found nothing to excel Adlerika."

J. E. Puckett: "After using Adlerika, I feel better than for 20 years. Awful impurities were eliminated from my system."

Dr. F. M. P. (name withheld by request): "I use Adlerika in all bowel cases. Some require only one dose."

No matter what you have tried for your stomach and bowels, Adlerika will surprise you. At leading druggists.

Governor Signs Bill Numbering State Highways

Several Other Measures Passed By Legislature Are Also Approved

(International News Service)

HARRISBURG, Pa., April 21.—Uniformity of numbering highway routes throughout the state will be made possible by Governor John S. Fisher today signing the bill of Representative Aaron B. Hess, Lancaster, giving the secretary of highways sole authority in making designations.

The bill gives the scecretary power to designate roads either by letter, nome or number. It also permits him to combine sections of roads under single designations.

The bill was aimed to correct a situation which first started in 1911 by the legislature giving roads numbers. Since that time each legisature has added other route numbers of their own to the highway system.

Officials of the highway department said today that so many numbers have been used that it has been difficult to print maps which could be understood easily.

The department is planning to group dozens of routes with numbers running into the hundreds under short designations which may be painted along the road.

The governor also signed the Krause bill which will allow existing beneficial or protective societies to reincorporate so that they may write health and accident insurance. The bill sets forth the conditions under which such reincorporation may be made and under which the company may operate.

Other bills signed were:

Bush, Fayette, making the unlawful use of dynamite a felony and placing a maximum ten year penalty and $1000 fine for conviction.

Emhardt, Philadelphia, providing for the validation and amendment of effective tax lines and municipal claims.

Earnest, Dauphin, regulating the aggregate amount of deposits which may be received by savings banks.

Hess, Lancaster, reducing the bonus on domestic corporations from one-third to one-fifth of a cent.

Tractor Plunges Down Grade Into Shenango River

Amzi Reynolds escaped injury today when a tractor which he was operating to grade the parking plot at the Ludwig garage crashed headlong down an embankment at a grade of 80 percent and nose-dived into seven feet of water in the Shenango river, near the West Washington street bridge.

Reynolds was piloting the heavy tractor at the top of the hill and attempted to change gears. The machine started down the hill as something went wrong. Reynolds tried to arrest its flight but was knocked aside and the tractor driverless tumbled on to the river, overturning several times in the plunge down the slope.

Reynolds' left leg was slightly bruised. A wrecker will remove the tractor from the river.

AFTER MEN FAIL WOMAN CLIMBS TREE AND RESCUES CAT

PHILADELPHIA, April 21.—After agents of the Society for the Prevention of Cruelty to Animals had failed to rescue a cat from the top of a high tree, Mrs. Garnet Geddes made the ascent and brought the animal to earth. "My home was in Wyoming, and I used to climb lots of trees out there," she told admiring spectators.

Jailed Ten Years In Bank Robbery

Northumberland Court Also Fines Elysburg Bandit $1,000 And Costs

SUNBURY, Pa., April 21.—John Mayeros, 33 years old, of Cleveland, O., pleaded guilty in the Northumberland County Court today to being one of three men who held up and robbed the First National Bank of Elysburg, near Shamokin, on January 13.

He was sentenced to serve not more than twenty or less than ten years in the Eastern State Penitentiary at separate and solitary confinement, pay a fine of $1000 and the costs of prosecution.

The men held up Cashier Gearhart and his assistant at revolvers' points, and after handcuffing them got away with $1300 in bills. He was captured in Cleveland by State Troopers Auffman and Buckbee of the Sunbury detail.

The other two have not been caught.

Youthful Check Passer Is Held In Philadelphia

(International News Service)

PHILADELPHIA, Pa., April 21.—Philip C. McLaughlin, 21, Ottawa, Canada, who police say is a Trinity college graduate and son of a wealthy broker, was held in $400 bail for a further hearing by Magistrate Edward Holland today on a charge of passing a worthless check.

McLaughlin was arrested as the youth sought to pass a $75 check in payment for merchandise.

Our climate certainly would be ideal were it not handicapped by so much weather.

Already a long, hard winter is being predicted. There is nothing like getting on the job early

St. Louis Making Main Thoroughfare Into Boulevard

(International News Service)

ST. LOUIS, April 21.—Olive street, the main thoroughfare of the city is taking on a new front.

For 22 blocks from the downtown section to the mid-town district a slice 40 feet deep is being cut in the south side of the street to make a boulevard 100 feet wide. To do this hundreds of buildings are being condemned which means the passing of many landmarks.

Included in the section that is undergoing the transformation are many homes which several years ago were occupied by the social leaders of the city. More recently they had degenerated into boarding houses and their eradication will cleanse the district of many eyesores.

Many a wet eye however has watched the destruction of a favorite schnapp house which were numerous in the section closer to the downtown district.

Now Get Aluminum From Any Claybank

(International News Service)

PITTSBURGH, April 21.—Aluminum, once regarded as one of the costlier metals, can now be produced from almost any claybank, according to H. V. Churchill, chief chemist of the Aluminum Company of America.

Describing the progress of the aluminum industry, Churchill recalled that the first aluminum produced in Pittsburgh cost $30 a pound. It was considered so valuable that the supply was locked in a safe at night.

"Aluminum now is produced at the rate of approximately 400,000,000 pounds annually," he declared. "The supply of clay used in its manufacture is almost inexhaustible."

Mrs. A. L. Quinby Drives 3235 Miles Within Eight Days

New Castle To Los Angeles, California; 455 Miles In 13 Hours First Day

New Castle can now boast of a regular Cannon Ball Baker, according to a report received today by B. N. Hanlon of the New Castle Motor Club from Mrs. A. L. Quinby, 304 Clenmore boulevard, this city, who stated that she traveled 3,235 miles, the distance from here to Los Angeles, California, in eight days by auto.

Mrs. Quinby, on her way to Los Angeles to visit her daughter, Mrs. Paul Jarvis, left New Castle at seven a. m. April 5. She went by way of Akron, O., connecting with the C. C. C. highway at Wooster, O., and the Old National Trail at Columbus, arriving in Terre Haute, Ind., at eight p. m., having completed a 445-mile drive in 13 hours. She stated that on her first day's drive the roads were of concrete or brick.

Continuing the next day, April 6, this "speed queen" again took the Old National Trail to Vandalia, Ill., turned south to Cairo, Ill., and crossed the Mississippi river by ferry to Bairds Point, Mo., going south into Arkansas. She came within two miles of her first day's run, with 453 miles for her second day, still traveling alone. In her report it was stated that at Cairo the high water was at the 52-foot stage, but did not stop traffic, although at several places water was over the runningboard. Railroad tracks are being used for ferry landings.

On her third day, April 7, route No. 70 from Memphis, Tenn., through Arkansas, was closed to traffic owing to high water. The A. A. A. of Memphis gave Mrs. Quinby, who is a member of the New Castle Motor Club, maps of Mississippi and Arkansas which directed her south into Mississippi and connected her with route 70 again at Little Rock. This was 160 miles longer than the route she should have taken, and the roads were not so good, so 348 miles were covered that day, bringing our "Lone Star" traveler to Hot Springs.

The fourth day should find this lady and her car fairly well acquainted as they start out together and drive from Hot Springs, Ark., to Fort Worth, Tex., a distance of 380 miles, with good concrete and graded gravel roads.

Chapter five: Hard surface roads from Fort Worth to Pecos, Tex., a distance of 422 miles.

On the sixth day the distance traveled was 426 miles, from Pecos via El Paso, Tex., and Lordsburg, New Mexico, to Stafford, Ariz. Sixty miles of dirt road were traveled on this day.

The seventh day of the trip was spent more in sightseeing, as it included the Apache Trail and Roosevelt Dam. The beautiful scenery for 70 miles through the canyons and over mountains rising 4,000 feet above their base, is indescribable. Phoenix, Ariz., was the next stop after 212 miles were covered.

The last day of the trip broke the distance record, Phoenix, Ariz., to Los Angeles being a distance of 504 miles. Starting at daylight, Mrs. Quinby went by Yuma, El Centro, Salton Sea, Riverside and Corna, reaching her destination at nine p. m.

One of the most interesting facts of this trip is the fact that all of her driving, except on her last day, was done by day, and alone.

Mrs. Quinby stated that she was very thankful for the assistance of the New Castle Motor Club, for the courteous attention and valuable information given her as a member of the association.

Three Philadelphia Firemen Are Burned In Apartment Blaze

150 Persons Forced To Flee As Flames Destroy Big Apartment House

(International News Service)

PHILADELPHIA, April 21.—Three firemen were burned and 40 families driven to the street in scanty attire early today when flames swept the Hastings apartments.

Firemen say 150 persons were driven from the four-story structure.

Ladderman James Forsythe was treated in Howard hospital for a fractured leg and burns. Lieutenant William McGowan and Horseman Edward Wood were burned severely in rescuing Forsythe.

The blaze swept the entire building, causing thousands of dollars damage. Its origin is undetermined.

Dr. McDowell Is Noted Authority

Will Speak At Mass Meeting Friday Night About Corn Borer

Dr. M. S. McDowell, dean of the extension service of Pennsylvania State college, who will deliver an address to those in attendance at the mass meeting to be held in the auditorium of the Consistory cathedral at 8 p. m. Friday, April 22, for the purpose of discussing the corn borer, is considered one of the most outstanding agricultural authorities in the United States. The federal department of agricultural looks upon Dr. McDowell as one who has probably contributed more to agriculture in the United States than any other man.

As dean of the agricultural extension service State college, Dr. McDowell is continually making a study of agricultural conditions in communities of the state through the agricultural agents in each county and has employed in his department such men as Dr. E. B. Fitz, the widely known dairy specialist; Dr. E. D. Nixon, national authority on potato culture, and many others equally efficient.

The work which is being done by the agricultural school of Pennsylvania State college is looked upon as accomplishing better results than the agricultural colleges of any state in the union, and a large percentage of these results are due directly to the efforts of Dr. McDowell.

Clinic Centers Being Selected

Plans Being Made To Administer Toxin Anti-Toxin Treatment

The preliminary organization of clinic centers for the administration of toxin-antitoxin in Lawrence county is proceeding successfully and rapidly, according to reports by workers in charge, made to Dr. H. C. Harper, county medical director, today.

Centers have been organized in Hillsville, Bessemer, Enon Valley, New Wilmington and Wampum. In all these places workers report much interest and splendid co-operation on the part of the teachers, doctors, boards of education and other influential citizens.

John C. Syling, superintendent of Lawrence county schools, has given his hearty endorsement to the plan to extend the campaign throughout Lawrence county. "We have noticed the results obtained in neighboring counties in Pennsylvania, as well as in neighboring counties in Ohio, and have found these results very satisfactory", said Mr. Syling, "and we hope that the greater number of children in this county may be given this free treatment and thereby eliminate one of our most dreaded diseases.

Miss Myra Ackerman, Miss M. A. McLaughlin, nurses employed by the Pennsylvania Department of Health for Lawrence county, and Miss Delia Glenn of the Lawrence County Tuberculosis Association, have been working with Miss Edith Stuckey of the department of health on the organization of clinics.

A Simple Application That Dissolves Blackheads

No more squeezing and pinching to get rid of those ugly blackheads. Get a little Calonite powder from any drug store, sprinkle a little on a hot, wet cloth, rub over the blackheads, and in two minutes every blackhead will be dissolved away entirely.

Chrysler Dealers And Salesmen Are Banquetted Here

About 40 Gather At Elks Home —High Officials Of Company Here

Members and salesmen of the Chambers Motor Company in this city, and its branches in Butler and Ellwood City and other dealers of Lawrence and Butler counties of the Chrysler automobile, to the unmber of 40, last night attended the dinner and sales meeting held at the Elks Club.

The affair was featured by the presence of three prominent officials of the Chrysler Sales Corporation, George C. Clark, original sales director of the Chrysler Sales Corporation, and direct from the factory at Detroit; Ray Spencer, district supervisor with headquarters in Pittsburgh, and Harold Ludlow of the Pittsburgh district supervisor's office.

T. E. Chambers of the Chambers Motor Company presided at the dinner and introduced the several visiting officials. Prior to the talks of the speakers of the evening a splendid entertainment program consisting of a blackface monologue by Harry Elwell and musical numbers by the Castleton Four, consisting of Messrs. George Anthony, Harry Evans, William D. Williams Jr. and Arthur Thomas, with Edwin Lewis as accompanist, was given and thoroughly enjoyed by the guests of the occasion.

Harold Ludlow gave a short talk on sales possibilities as considered from the Chrysler automobile standpoint, and his remarks proved most instructive to those in attendance.

Ray Spencer, district supervisor, gave an intimate talk on organization sales lines which was of value to the group of men assembled at the dinner and meeting.

George C. Clark, as the principal speaker, spoke of the major sales campaign now under way all over the country and the new and novel means being used to make it a success. Among other things he told how for the first time in the history of the automobile industry the Chrysler Sales Corporation was bringing the salesman to the fore, making him a positive unit in advancing the interests of the Chrysler car. He spoke of the nation-wide organization of 4,000 dealers and methods employed by the Chrysler factory in keeping up with their sales efforts and the pronounced increase in production and sales of the cars made by it.

Dance To Follow "Miss Mannequin"

Large Crowd Expected To Attend Production At Cathedral

Alumni of Pitt university in this district are greatly interested in "Miss Mannequin" to be produced April 29 by the Cap and Gown club of Pitt at the Scottish Rite cathedral, among the alumni being Drs. John Foster, Thomas Shaffer, J. C. Douthett, J. G. McConahy, F. Fulton Jackson, Robert Eagleson, F. W. Guy, Hyman Frank and others.

"Miss Mannequin" is said to be one of the best productions of its kind brought to the city of New Castle and indications are that not only Pitt alumni but students and graduates of Westminster, Grove City, Thiel, Allegheny and Geneva will be present as the production of "Miss Mannequin" is to be followed by a college dance in the Scottish Rite cathedral ballroom, the dance hours being from 11 p. m. to 2 a. m.

Tickets are being sold by Pitt alumni and at the Snyder Piano company.

Two Held Up At Youngstown Theatre

YOUNGSTOWN, O., April 21.—Strolling out the side entrance of the Liberty theatre a robber escaped after holding two theatre employes at the point of a gun while he attempted to open the safe.

He was unsuccessful and finally gave up the attempt. As he left, he snatched a banjo and walked out.

Two policemen were standing across the street as the gunman left the theatre.

BROKEN REST

Caused by Bladder Irritation Is Nature's Danger Signal

C. R. Kidney, Ontario, N. Y., says: "Lithiated Buchu has done more for me than all other remedies combined. Some days I had almost a constant desire with a terrible burning sensation. Would be bothered about six times at night. Will tell or write my experience to any one." Don't take astringents for this. You may get the habit or be forced continually to aid nature. Lithiated buchu, (Keller Formula), acts on the bladder as epsom salts do on the bowels. Drives out foreign matter, decreases excessive acids, thereby relieving irritation.

The tablets cost 2c each at drug stores. Keller Laboratory, Mechanicsburg, Ohio. Locally at Paisley's Pharmacy.

ENDURED AGONY FROM BRUISES AND STRAIN

Hurt in bad fall, young woman makes quick recovery

A young woman at Bushnell's Basin, Monroe County, New York, fell and was badly bruised and strained.

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Simply the fact that Sloan's doesn't merely deaden the nerves so that you don't feel the pain. It really drives out the pain by helping the conditions that are causing it.

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out congestion, relaxing contracted muscles. The pain stops as a natural consequence.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work. Get a bottle today and have it on hand. All druggists have it—35 cents.

Cunard May Revert To Coal For Fuel; Oil Too Expensive

By CHARLES A. SMITH
International News Service Staff Correspondent

LONDON, April 21.—British shipping companies who have fitted vessels for oil fuel during the past few years are considering whether it is possible to continue working economically with oil at present prices.

Sir Thomas Royden, Chairman of the Cunard Company, stated at a recent meeting of the company's shareholders that the Cunard may eventually be forced to revert to coal fuel for reasons of economy. His statement has served to focus public attention here on a matter which has been troubling shipping companies for months past.

The present price of oil fuel in England is $16 a ton compared with slightly less than $5 a ton for best steam coal. In the past it has been accepted that oil fuel was economic so long as the price per ton was not more than two and a half times the price of coal. Today it is nearly four times as costly.

The supplies of crude oil, according to authorities here have decreased enormously. At the present moment it is stated that the supply is only equal to the demand. At present oil burning ships equal a gross tonnage of nearly 18,500,000, compared with some 17,700,000 tons a year ago, and only 1,310,209 tons in 1914.

Last year more than half the tonnage built outside Britain consisted of motor tonnage. In Britain it consisted of about a third.

Rid Me of Piles

Suffered For Years; Says "The Only Remedy That's Any Good."

John O'Leary, 297 North Division Street, Buffalo, for 14 years Supervisor of the Second ward, wants to pass the good word along.

"Take it from me," says Mr. O'Leary, "When you suffer torment with piles for many years as I did, and tried all kinds of remedies without any success, you'll be glad to say a good word for the only remedy that is any good!"

"Peterson's Ointment rid me of piles so quickly that I was astonished. I felt somewhat peeved, however, to think that I had suffered so many years before knowing what a wonderful remedy Peterson's Ointment is. Let me thank you from the bottom of my heart."—John O'Leary.

Clothes get *whiter* in these safe suds

In machine or tub—no scrubbing or boiling

HERE'S a soap that ends—*forever*—all the hard work of washday.

Best of all, it gets the week's wash whiter and brighter than you've ever seen it.

Whether you use a machine or do your wash in the tubs, you won't need to do a bit of hard rubbing.

No matter how soiled the clothes, how heavy the wash—every piece comes snowy and sweet the Rinso way. And it's so easy on hands!

Such thick creamy suds!

Women who use Rinso for the first time are astonished.

This amazing granulated soap makes the water soapy all through—even the hardest water. In these rich, creamy, *lasting* suds the dirt and stains float off by themselves!

No wonder Rinso is recommended by the makers of 31 leading washing machines!

Rinso is all you need on washday—no bar soaps, chips, or powders. Women say it's a great saving.

Sterilizes without boiling

You even save fuel, for with Rinso you don't need to boil the wash. It whitens without boiling and actually *sterilizes* the wash—that's how clean it gets it!

The millions who use Rinso know it's safe. It contains no acids or bleaches of any description.

Get Rinso from your grocer in time for next washday. Follow simple directions on package for economy and for best results.

Like magic for tub washing, too

Millions who do the wash by hand, find Rinso simply indispensable. For Rinso does all the hard work. Saves you—saves your clothes—saves your hands.

Team Runs Away; Farmer Is Killed

MARION, O., April 21.—Becoming frightened, a team of horses Tuesday ran away and dragged a heavy roller over George Will, 72, a farmer, killing him.

His body was found by section workers yesterday on his farm near Upper Sandusky. He had a broken neck and crushed chest.

Beside the body was the roller. The team of horses was standing nearby, munching grass.

Coroner L. W. Naus of Wyandotte county pronounced death accidental.

It seems as if pretty nearly every program nowadays has to have its beauty contest.

NEW BLACK BOTTOM DANCED

The black bottom, tamed to suit the English taste, has been introduced in London by a London dancing instructor. It is called the ballroom black bottom, and is said to be a very quiet and peaceful member of the family of shuffling feet. One difference between the ballroom black bottom and the flat Charleston is that in the first the knees are bent alternately, while in the Charleston they are bent in unison.

5000 miles in 4909 minutes!

Studebaker Commander maintains mile-a-minute speed for 81 hours, 49 minutes

5 amazing records for speed and endurance established by Big Six

NEVER before has any automobile in America traversed 5,000 miles in less than 5,000 consecutive minutes.

A stock Studebaker did it—The Commander, a closed car fully equipped, including even spare tire.

In official tests under the sanction and observation of the American Automobile Association this stock Studebaker, identical with the car you can buy in any Studebaker sales room, not only established the amazing new record of 5,000 miles in 4909 minutes total elapsed time, but also set four other records.

2500 miles in 40 hours, 12 minutes, 54 seconds total *elapsed* time. An average speed of 62.16 miles per hour.

3102½ miles in 50 hours total elapsed time. An average of 62.05 miles per hour.

3500 miles in 56 hours, 47 minutes, 32½ seconds total elapsed time. An average speed of 61.62 miles per hour.

4,414 miles in 72 hours total elapsed time. An average speed of 61.3 miles per hour.

5,000 miles in 81 hours, 48 minutes, 22 seconds total *elapsed* time. An average speed of 61.12 miles per hour. No automobile or other vehicle in America has travelled so far so fast. No stock closed car has ever approached this record.

Here is what these records mean to you:

1. It is possible to purchase a truly great automobile at a moderate price. These records prove that The Commander has justly been called "the greatest post-war achievement of automotive engineering."
2. The Commander, because of the superabundant power of its Big Six engine, will perform eagerly, easily, smoothly, with no labor or effort, any and all tasks placed upon it.
3. Studebaker has produced in these new models, cars which will excel even the staunch, dependable Studebakers of the past, in low repair and maintenance costs.

Any motor expert will tell you that 5,000 miles at more than a mile a minute is equivalent in strain and stress to 25,000 miles of ordinary driving. Yet in this terrible test the only replacements or repairs were three grease-cups, one spark-plug and one punctured tire. Only one pint of water was used.

NOW! Drive a Commander yourself. Know this great car through your own hands and feet. These shattered records merely dramatize the thrilling performance which Studebaker Commander owners everywhere are enjoying. They explain why the Studebaker Big Six is far out-selling the combined totals of all other cars in the world of equal or greater rated horsepower. The exact duplicate of this record-shattering car is waiting for you at Studebaker showrooms.

Commander Models and their One-Profit Prices: Sedan, $1585; Victoria, $1575; (with broadcloth upholstery, $1645); Coupe, $1545; (with rumble seat, $1645). Other Studebaker and Erskine models range in price from $945 to $2245. All prices f. o. b. factory

Miss Betty Glover Scores Success In Westminster Play

New Castle Girl Portrays Leading Role In Most Capable Manner

(Special To The News)

NEW WILMINGTON, Pa., April 21.—Miss Betty Glover, pretty New Castle girl, was the recipient of the applause of the Westminster college student body Wednesday, for the wonderful manner in which she played the part of "Sylvia" in the junior class play, "Second Childhood", presented Tuesday evening in the Community auditorium before a crowd which completely filled the hall.

The play will go down as one of the most successful student endeavors ever attempted at the United Presbyterian school. From the beginning until the end, the audience was kept in an uproar over the stage proceedings. When the third act was completed it was the unanimous opinion that the play had been a wonderful success.

Eleven members of the class composed the cast and each one carried out his or her part to perfection. There was no waiting for cues and the manner in which each acted, displayed promising talent. The success of the play was due in great part to the efforts of Prof. R. A. Gettman of the college faculty, who coached the cast.

Other members of the cast were: Professor Relyea, Donald McClure of Blairsville; "Auntie," Miss Elizabeth Carnes of Sharon; Philip Stanton, James Purvis of Butler; General Burbeck, William Maxwell of New Wilmington; Marcella Burbeck, Miss Noran French of Sharpsburg; Mrs. Vivvert, a neighbor, Miss Lorena Garloch of North Girard; Mrs. Henderson, Miss Dorothy Nevin of Pittsburgh; Lucille Norton, a neighbor, Miss Helen Hastings of Bradford; Judge Sanderson, Maxwell Bovard of Sharon; Sheriff Johnson, Howard Kelly of New Castle.

Make Plans For Holding Of Boy's Week Programs

(International News Service)

CHICAGO, April 20.—More than two thousand cities celebrate Boys' Week starting April 30 and ending May 7. It is estimated more than a million boys will take part in parades, contests, hobby fairs, exhibitions and other features connected with the event. Word received by Walter W. Head, of Omaha, Neb., chairman of the national committee in charge of the activities in the United States, is to the effect that school boards, churches, service clubs and social service organizations are cooperating with the local committees to the fullest extent.

Boys' Week in New York in 1920 and the following year was observed in Baltimore, Kansas City, Chicago and Newark as well as New York. The following year it was observed in 207 cities and last year it became a truly world event and was observed in Canada, Australia, New Zealand, Cuba, Porto Rico, Mexico, England, China, Japan, Union of South Africa and several South American countries, as well as the United States.

New Church Will Be Opened Sunday

MERCER, Pa., April 21.—The Pentecostal church on Cunningham avenue built by Strus Adams will be formally opened to the public at a service of that denomination that will be held next Sunday, April 24th at 3 o'clock when a group of members form the church of Conneaut, O., headed by Rev. B. K. Robbins and a group from Greenville headed by Rev. Mrs. Jerome Plummer will be here.

It is stated that the church is built with a seating capacity for 100. The dimensions of the building are 30 by 30 in size. It is the first church of the denomination ever built in Mercer.

GARDNER

Both the speaking and the singing at the service next Sunday at the county home will be conducted by the Myers colored quartet. These men are often called the Jubilee singers of New Castle and their music is greatly appreciated wherever they sing.

Last Sunday Edward Shaffer gave Mrs. Sarah Black of the home a copy of the Bible in four separate volumes having a very large print.

Last Saturday Mrs. A. H. Robb of Gardner and her sister Mrs. Croup of Princeton went to Farmdale, O., to see their father Mr. McCamey who has been quite ill for some time.

Coal Production Cut 80 Per Cent Through Suspension

Illinois And Indiana Hardest Hit By Present Tie-Up

By KENNETH CLARK
International News Service Staff Correspondent

WASHINGTON, April 21.—Soft coal production in the central competitive field of Illinois, Indiana, Ohio and western Pennsylvania has been cut approximately 80 per cent as a result of the suspension now entering its fourth week, according to official government figures today.

These figures indicate that the ranks of the United Mine Workers are holding fairly well intact. Except in western Pennsylvania, the chief battleground of miners and operators, none of the big producers in the field are running non-union.

Illinois and Indiana have been hardest hit by the suspension. The production decrease in these states is estimated at 97 per cent. The miners' organization is strongest in these two states. Ohio production has been cut 84 per cent. In Ohio the union has permitted some of the smaller operators to continue on the old wage basis of $7.50 a day pending negotiation of a wage contract for the entire field.

The fight in the Pittsburgh district so far has been about a draw, at least so far as production is concerned. The production decrease there is estimated at 50 per cent. Under the leadership of the Pittsburgh Coal company, which has announced it never again would operate with the union, several of the larger producers are running on an open shop basis.

Public School Sessions Resume

New Castle Public school resumed session today after a week's Easter vacation. Early this morning the familiar line of children wending their way to school was seen that has been missed for the last week.

There are about 11,000 school children in the city of New Castle and the fine weather of the past week gave them a good taste of the summer vacation still in the future. We think that they were quite reluctant to go back to the school room with the great outside calling them in this nice summer weather.

During the past week the children could be noticed in greater number on the streets or hiking into the country, fishing or seeking flowers.

In Six Years Palestine Sand Dune Becomes Progressive City

Main Street, Tel Aviv, Palestine

ONE of the most striking evidences of the new Palestine, which is arising as a result of the Jewish development taking place there, is the city of Tel Aviv.

Hardly more than a half dozen years ago, most of it was a bleak stretch of desert sand. Today, that old sand dune is the site of a modern city of over 45,000 inhabitants, with modern schools, electric lights, telephones, attractive stores and homes.

Tel Aviv is not only the newest but also the most progressive city in the Holy Land.

After a recent visit to this city, Colonel Josiah C. Wedgwood, former member of the British cabinet, declared that "Tel Aviv is the only Western town in the Levant, and at present it gives one the impression of being much too modern for its surroundings. The streets of Tel Aviv are paradise compared to some of the other streets in parts of Palestine languishing under Arab dominance."

Tel Aviv is typical of a number of other progressive cities which are beginning to dot the hills and valleys of old Judea. There is the city of Hadar Hacarmel, another one built up in the past few years by the Zionists. In beauty of homes, it even surpasses Tel Aviv. Situated on the slopes of Mt. Carmel, where dwelt in Scriptural days the great prophet Elijah, it presents a picture of rare charm.

The funds raised in America by the United Palestine Appeal have been the principal factor in producing this great modernization of the old Jewish homeland.

Highway Bids For 20 Miles Of Work Are Opened Today

(International News Service)
HARRISBURG, Pa., April 21.—Bids for the paving of approximately 25 miles of road in seven counties were opened today in the state department of highways. There were eighty-seven bids for the nine projects.

David Schoentag, Saugerties, N. Y., was the low bidder on both projects in Luzerne County. For 6,876 feet in Fairview and Hanover townships the bid was $317,641. The firms bid for 25,339 feet in Black Creek township was $157,663.

Other low bids included:

Northampton county, 34,668 feet in lower Mt. Bethel township; McInerny and McNeal, Easton, $275,410.

Northampton county, 2,475 feet in Nazareth borough; Juniati company, Philadelphia, $44,156.

Beaver county, 1,541 feet in Borough township; Rinehart Brothers, East Liverpool, Ohio, $35,524.

Waits For Brother She Last Saw In '61

North Carolina Woman Still Hopes To See Kin Who Left To Join Lee

CARTHAGE, N. C., April 21.—Out the old Raleigh road, a few miles from Carthage, in a little cottage screened from the view of wayfarers by a fringe of huge oaks, lives Mrs. Annie Frye, one of the few who can remember the roar of Civil War guns and the boom of cannon as the followers of Blue and Gray struggled for supremacy.

Wrinkled and grayed by her 90 odd years of existence, and suffering from the infirmities attendant with so great an age, she is still living in the hope of again seeing her brother who, at the age of 16, left the old home place on Deep river to join the Confederates under Lee and has never been heard of since peace was declared at Appamatox. Bryant Moore, the missing man, is 83 if still alive, and according to Mrs. Frye he was known to have come through the conflict unscratched. He was one of three brothers who answered the call to arms from Caviness settlement on Deep river.

Hoover thinks we have recovered from the war. Well, yes; you can recover from an operation and still suffer while paying the doctor.

Unused Portions Of Roads Are Vacated

Parts Of Road In Mercer County Are To Be Vacated Petitions Relate

Mercer, Pa., April 21.—That a large portion of the collective mind in Mercer county is bent on travel is proven by the filing this week of perhaps the largest number of papers affecting roads and bridges of any single instance in county history.

Among the principal items of interest are included the filing of four petitions for the vacating of portions of road in Sandy Lake township on what is known as the Sandy Lake to Polk road.

It is set forth in the four petitions filed that the following distances of the old road were abandoned when the new concrete highway was laid out and that the road officials desire these short distances annuled; one of 920 feet; one of .127 of the mile; one of .116 of a mile; one of 1352.4 feet.

The wet spring weather and consequent bad roads have made postponement of many views proposed including one of a public road to be constructed in Pymatuning and Hickory townships of 2 miles; a road of one mile in length in South Pymatuning township from the home of Ralph Hull to Hickory township was deferred on request of viewers the court granting payer of viewers for later hearing on the McKenzie bridge in Salem township, the viewing of the bridge over Buff run in Salem, also for report at this term was postponment by circuit order. It is set forth in these varied petitions that the roads were in such shape that the viewers could not get out. Pearl and George Massena were awarded $150 damages by report of viewers for moving of the road in Sandy Lake township. The viewers were T. A. Sampson and L. M. Miller of Mercer, C. P. Clarke of Greenville.

Mother, Girl Elope; Marry On Same Day

Neither Aware Of Other's Intentions Until After Rite By Same Justice

SAN FRANCISCO, April 21.—Mother and daughter engaged in a double elopement with neither aware of the other's action until after the two weddings. Both eloped to Redwood City and both were wed, barely an hour apart.

Mrs. Ruth E. Bendowski was the first to elope. She and Ross Lee Houshnell, thirty-eight, a carpenter, motored to Redwood City, obtained a marriage license, walked across the street and were married by Justice Griffin.

An hour later Helen Louise Bendowski, eighteen, daughter of the first woman, appeared in the Redwood City License Bureau with Francis Naither, twenty-one, a shipping clerk.

The young couple also obtained a license and followed the route across the street to the office of Justice Griffin. He performed the second ceremony and then remarked upon the fact that only an hour earlier he had married a Mrs. Bendowski to Houshnell.

The girl asked to see the record, and when she saw that the maiden name given was Ruth Walton, she knew it was her mother. She was no more surprised than was Mrs. Houshnell when she learned, upon the return of the young couple, that her daughter had become Mrs. Naither.

Mother To Testify In Final Effort To Save Her Son

(International News Service)

JEFFERSON, Ohio, April 21. — Mrs. Olive Hewitt, mother of Floyd Hewitt, was to go on the witness stand today in a last and supreme effort of the defense to save the 16 year old Conneaut boy from the electric chair.

The youth, who is under first degree murder indictment for the killing of Mrs. Celia Brown and her five year old son at Conneaut February 14 was to hear from the lips of his mother a denial of his own confession that he killed Mrs. Brown and her child, and a story that he was elsewhere than at the Brown home the night the murders were committed.

The defenses "perfect alibi" went into the records of the case Wednesday afternoon when three defense witnesses accounted for the presence of Floyd elsewhere than at the murder scene on the night of the fourteenth of February. According to these witnesses Floyd was at the W. H. Miner home where he lived, from 6:20 p. m. to 10 p. m., on that date and it was during those hours that Mrs. Brown and her little son were slain.

Two alienists, Dr. J. S. Emerick, of Columbus, and Dr. E. J. Tierney of Cleveland, testified for the defense Wednesday afternoon, declaring the accused youth has the mentality of a ten year old boy and is not wholly responsible for his actions.

It is noticed that the most fervent speakers for a revival of suspenders call them "galluses".

There isn't room in any country for both State rights and Federal aid.

Eight Clubs To Compete In Inter-County Golf Tourney This Summer

(International News Service)

INDIANA, Pa., April 21.—The eight golf clubs comprising the Inter-County Golf Association of Indiana and nearby counties will begin their matches in quest of this year's sectional championship on June 30.

William E. Pierce, of Indiana, was re-elected president of the association; George C. Brown, of Punxsutawney, was named vice president, and Charles Cornahan, of Indiana, secretary.

The first elimination matches to be played are:

Dubois and Brookville at Dubois; Dubois and Kittaning at Punxsutawney; Latrobe and Punxsutawney at Indiana; Ridgway and New Bethlehem at Brookville.

The four winning teams will play on July 21, and the second round winners will meet in the final August 11, at a place to be selected later.

Each team will be represented by eleven players and one point will be tallied for each individual win.

The Indiana golfers won the sectional championship in 1926 with Punxsutawney runner-up.

Capitol Stock Company To Open With "Best People"

Manager Charles Kranz of the Capitol Theatre announces that the opening play selected to introduce the Roberson-Smith Players to New Castle will be Avery Hopwood's famous New York success, "The Best People". Several reasons prompted this choice, to begin with the Roberson-Smith Players have used this smart comedy drama to open ten different stock companies. Every company has been very successful. The different parts in the play permit the several members of the company to be shown to good advantage and the play contains every element that makes the popular stage success of today, laughs—tears and thrills.

Mr. Al Smith is in town now completing arrangements for the remodeling of the stage facilities and dressing rooms and getting everything in shape generally for the opening on Monday Evening, May 2nd.

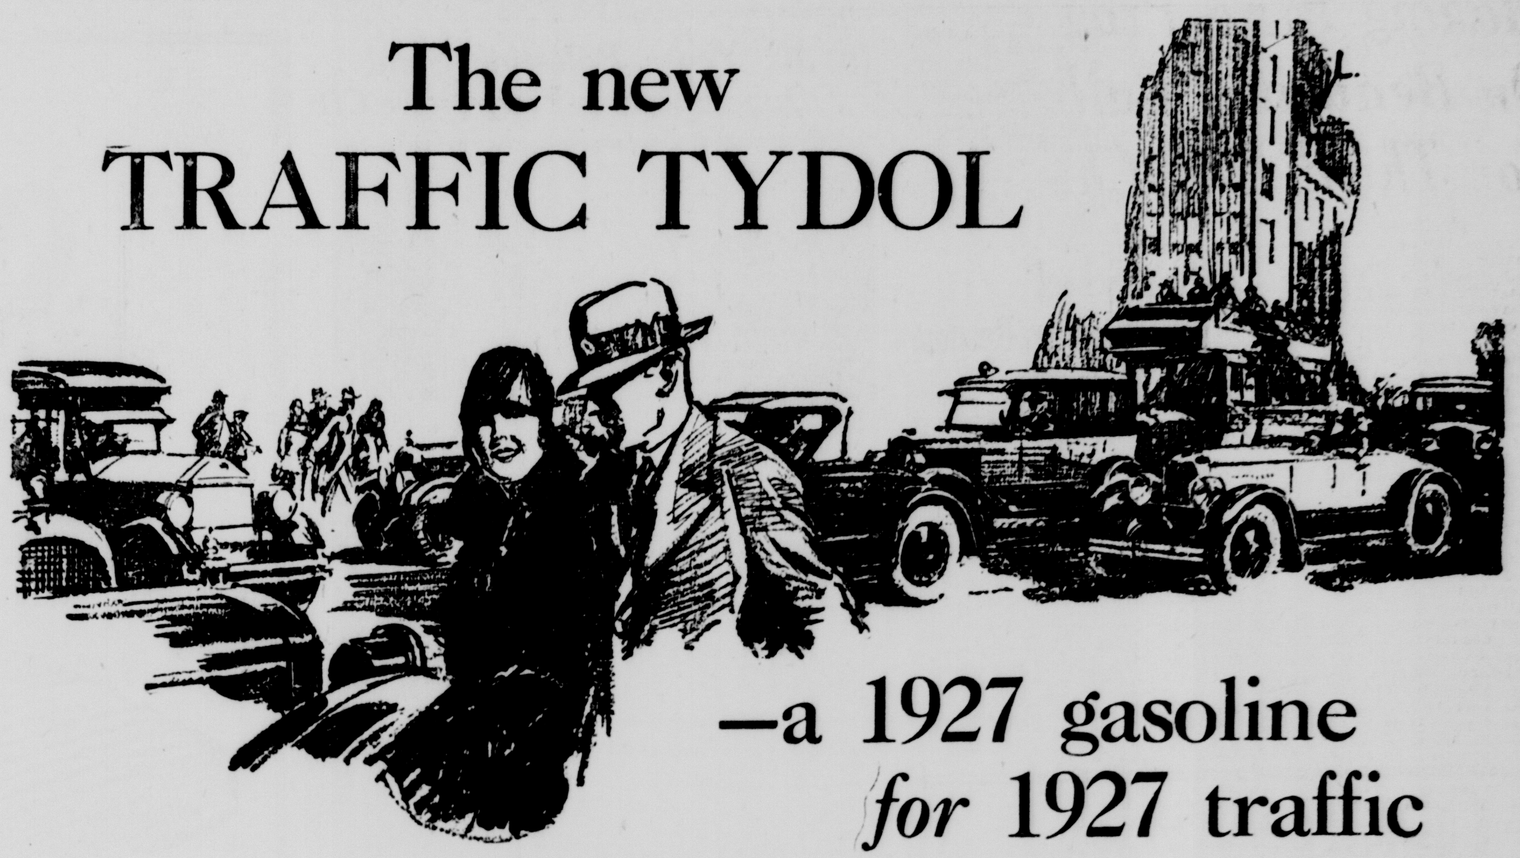
A cast of New York stock favorites have been selected including some of the best known stock actors and actresses in the country today. Kenneth McDonald has been selected to be the leading man. He is coming here from Lexington, Kentucky, where he has been playing for thirty-three weeks with the Lexington unit of the Roberson-Smith Players. Mr. Smith has not quite decided who the leading woman will be yet. Santos Artegas, will be the second lead. He has just completed a long season with Miss Blanche Ring as the Spanish lover in "The Cradle Snatchers". Howard Lane will be the juvenile man, he has just closed his vaudeville act in which he has been headlining vaudeville shows over the Kieth-Albee circuit. Eugene La Rue will be the general business actor. He recently closed with the New York company of "Broadway"—New York's biggest hit of recent years. Grace Walsh will be the engenue, she created the part of Florence in "Is Zat So". Florence Cornell will be the character woman, she has been with the Chicago unit of the Roberson-Smith Players.

Of more than usual interest will be the announcement that Wilhelmina Grey, the daughter of John G. Nothdurft, of the Dollar Savings bank, has been selected as the second leading woman with the company and that her husband George F. Fogle will be the stage director. Mr. Fogle is looked upon in theatrical circles as being the best stock director in the country and several New York producers are now trying to buy his contract to have him produce their New York successes. Mary Mabel McCormick will be the general business woman, she has been with the Pittsburgh unit of the Roberson-Smith Players. Altogether there will be twelve permanent players and others will come on at various other times from the other units of the Roberson-Smith companies.

Some of the plays to be produced are What Price Glory, The Gorilla, White Cargo, Rain, Aloma of the South Seas, Bird of Paradise, Up in Mabel's Room, The Patsy, Laugh That Off, Square Crooks, Cat and Canary, Abie's Irish Rose, Lightin, Sally Irene and Mary, 6 Cylinder Love and others of like calibre.

Roberson-Smith now operate eleven companies, their Pennsylvania units include Pittsburgh, Erie, Lancaster, Reading and Altoona. They are the biggest stock producers in the world and their success is based on just one policy, the very latest plays, with the very best actors and actresses and mounted as well if not better than the original New York productions and presented to the public at popular prices.

The new TRAFFIC TYDOL



—a 1927 gasoline *for* 1927 traffic

Improve your motor's performance 5 definite ways. Get the new Traffic Tydol from Sealed Tydol Pumps. No premium price.

YOU know the whistle-jumpers who leap out at you from cross streets! And the fender-benders who try to close the gap you're shooting through! And the racing-pilots who can't bear to have you pass them!

They are all good reasons why 1927 traffic demands good brakes and skill at the wheel.

But even *more*, modern traffic demands a new type of motor fuel—not just a "good" gasoline, not a special-feature gasoline, but a gasoline that makes these 5 improvements in the performance of your motor. First, split-second starting. Second, rushing pick-up. Third, great reserve power for emergencies. Fourth, elastic power to reduce gear-shifting. Fifth, anti-knock qualities to keep a motor quiet and sweet-running.

And now such a gasoline is offered to the motoring public in the new Traffic Tydol. Impartial tests made by professional car demonstrators proved the New Traffic Tydol superior to other gasolines in the 5 essentials demanded by modern traffic. The improvement this new gasoline makes in a motor's performance is so apparent that you can easily confirm these tests in your own car. Test Traffic Tydol today.

The New TRAFFIC TYDOL means

1. FASTER STARTING
2. QUICKER PICK-UP
3. MORE POWER
4. LESS GEAR-SHIFTING
5. REDUCES KNOCKING

Above facts proved in impartial, stop-watch tests. New Traffic-Tydol competed with seven other gasolines. Tests made by 16 professional demonstrators, in following cars, picked at random.

Ford	Pontiac	Chandler
Whippet	Nash	Buick
Chevrolet	Hupmobile "6"	Studebaker
Dodge	Franklin	Chrysler
Star "6"	Willys-Knight	Reo
	Locomobile "8"	

New Traffic-Tydol earned 66 out of possible 70 first places in tests made on 5 separate points. Unanimous choice of all 16 demonstrators as best all around gasoline.

Cat, Robbed Of Kittens, Finds Aromatic Brood

QUINCY, Ill., April 21. — F. A. Jones, a farmer living in Brookfield, Mo., near here, was visited recently by a gray cat with four kittens, and Jones consigned the four kittens to a creek.

The next day, to his surprise, his small son informed him that the kittens were safe and sound. Jones found the cat had acquired four other kittens without doubt, but instead of their being some other feline's offspring, they were of the genus mephitis, or common American skunk.

Making Fine Progress On Beautiful Building For Third U.P. Church

Work on the new church building being erected by the Third United Presbyterian congregation on East Washington street is progressing very rapidly with the fine spring weather of the last few days.

This week will see the plastering in the first and second floors of the Sabbath school rooms all finished and as soon as it is dry enough the carpenters will start with the finishing, laying the floors and other wood work.

Also this week will finish the cementing of the basement, and soon the class rooms will be placed in the basement, also.

The large auditorium is being slowly completed. It is necessarily a slow process to work on such a large auditorium and to accomplish the fine work there. But with the way the work is progressing it will undoubtedly be ready for occupancy by early fall says Rev. S. B. Copeland, pastor of the church.

The pipe organ has been ordered and as soon as work on the auditorium has progressed far enough it will be installed. The organ is one of the best, consisting of an echo organ, chimes and harp in addition to the main organ.

The main auditorium is to be capable of seating nearly 1,000 people, with room for about 280 in the balcony and 680 in the lower part of the auditorium. The auditorium is approached from Washington street by steps which have just been built. Two doors open into the hall way with three doors from the hall into the main room, one in the middle and one on each side. Also doors from each end of the hall lead to stairs to the balcony and to the basement with rest rooms on each end of the hall.

The pulpit platform faces the entrance, the organ and choir loft occupying the space back of the pulpit. The other three sides of the room are occupied by three large windows which are to be fitted with three beautiful stain glass memorial windows.

The windows which have already been ordered are made up of three beautiful scenes from the Bible as well as many smaller scenes. The three large pictures that will occupy the centers of the three windows are "Gethsemane," "The Empty Tomb," and "The Good Shepherd."

Seats, pulpit furniture and choir furniture as well as the other furniture of the church have already been ordered. The floor will be built of the sloping design so that the speaker can be easily seen. The auditorium is quite wide but not so very deep, so that the speaker is not far distant from any part of the room.

The Sabbath school rooms which are mostly completed are built in the rear of the main auditorium and occupy the two floors and the basement. The plan on the three floors is quite similar. It consists of a main hall running along one side with a fairly large assembly room for each department and small class rooms opening into this assembly room. The doors will be so made and the class rooms are so built that when the superintendent of the department and the song leader stand at their desk they can see the pupils in all the rooms and the pupils can see them from the seats in their class rooms.

On the main floor are the rooms for the Beginners, Juniors and Primary Departments, on the second floor are the rooms for the Intermediate and Young People's Divisions, while in the basement are the class rooms for the Adult departments. A large comfortable class room has been planned on the first floor for the aged ladies' class so that they will not need to climb any stairs.

In the basement just beneath the auditorium is located the dining room capable of seating nearly 600 banqueters. In the rear is a very spacious kitchen. The banquet hall has a large stage being erected on one side so that the entertainments can be held in this room, the main auditorium above being used only for divine worship.

In addition to all the rooms for Sabbath school and Social purposes there are the secretary's office, pastor's study, choir room, a ladies' parlor on the second floor with small kitchenette attached and spacious toilet and wash rooms. In fact every effort has been made to make it a modern church plant in every way. Rev. Copeland says that Easter Sabbath showed that they will not have the new building any too soon. For 796 Sabbath school scholars were present last Sabbath and Communion was administered to 642 communicants, some of whom had to be served in the basement, not being sufficient room in the main auditorium. 102 new members have been added to the church roll in the last three months, so that all will rejoice when they can move their growing numbers into the new house.

NEW AIR MAIL SERVICE STARTS

Cleveland-Pittsburgh Line Begins Operations During Day

(International News Service)

PITTSBURGH, April 21.—The arrival of the giant mail plane "Miss McKeesport," at Bettis Field, McKeesport, this afternoon, and the departure for Cleveland of the plane "Miss Pittsburgh," today will officially link Pittsburgh and Cleveland with daily air mail service.

The two giant planes, whose arrival and departure are to be the signal for an eleborate program, are to be greeted by a delegation of civic dignitaries.

Five thousand letters will be carried on the "Miss Pittsburgh" on its first official flight to Cleveland, where the plane is to be met by a fleet of mail trucks to insure immediate distribution of the mail.

Eviction Writs Will Be Served Against Miners

(International News Service)

PITTSBURGH, April 21.—Formal eviction writs, believed to be the initial move of the Pittsburgh Terminal Coal Corporation to oust union miners from the corporation's houses at Coverdale, Library, Mollenauer and Curry, today were in the hands of deputy sheriffs for service.

Twelve ejectment notices were on file in common pleas court here against unionists at the Coverdale coal community, and these were understood to be the forerunners of others which will affect the 267 houses owned by the corporation.

Horace F. Baker, president of the corporation explained that if former employes of the company refused to return to work under the corporation's recently announced non-union policy, they would be forced to vacate to make room for miners he planned to bring in to work the collieries.

The formal ejectment writs allow only three days for the miners to vacate their homes.

Civic Conferences End This Evening

The civic conferences which have been in progress for over two weeks and attended by more than 300 men, will be discontinued after Thursday night's eight o'clock meeting. These sessions have been productive of enormous good from the standpoint of constructive suggestions and after having been approved by a large number of business and professional men the suggested projects are now to be submitted to the citizenship for further suggestions, particularly that everyone in New Castle may have an opportunity to vote on the order in which the projects are to be undertaken.

Questionnaires for this purpose are now being prepared and mailed to citizens this week. All replies are to be returned by April 30, which will leave ample time for the board of directors of the Chamber to study and judge the replies and decide on the number of specific projects to be undertaken the first year.

Following the definite announcement of the completed program of activities the members of the Chamber, augmented by business men and leaders, will make a concerted effort during the week of May 9 to raise the necessary budget for the accomplishment of the projects determined. The teams now being organized will consist of 125 men, who for five days will give three hours of their time each day toward making this movement a success from the outset and bring in the required amount needed to carry out the community program as planned.

Speaking before the executive committee of the movement in the meeting today, Herbert Pairs, director of the campaign to raise the funds for support of the Chamber, commented on the splendid response of the various groups who are rallying to the support of this enlarged program by saying: "If New Castle business men will now profit by the experience of other cities and co-operate to the fullest extent, they will find their problems rapidly disappearing and their businesses on the up-grade continuously. New Castle's most important matter to be overcome at this time is to learn to pull together. By solidifying the elements of the community into one functioning and central organization New Castle can do whatever it undertakes to do, and the present expansion movement will be only a convincing proof of what can be accomplished if men and citizens of any community learn the art of team thinking and team working."

Slippery Rock Alumni Banquet

Dr. C. C. Green Among Speakers At Event In Pittsburgh, Friday, April 29

Jubilee banquet of the alumni of Slippery Rock State Normal will be held at Kaufmann's, Pittsburgh, on Friday evening, April 29. Alumni, friends and patrons of the school are planning to attend from a district of over 100 miles radius.

The program of the evening will consist of several short speeches, a number of readings and music. John E. Winner, who graduated at the head of his class (1902), a popular and prominent attorney of Bellevue, Pa., will act as toastmaster. Dr. C. C. Green, superintendent of New Castle schools and a member of the class of 1902, will also appear on the program.

Large delegations are expected from New Castle, Butler, Slippery Rock, Beaver, Beaver Falls, Natrona, New Kensington, Monaca, Woodlawn, McKeesport, Homestead, Monessen, Wilkinsburg, Sewickley, Swissvale, Carnegie, Duquesne and Coraopolis.

Among those who will attend from New Castle are Dr. and Mrs. C. C. Green, Mrs. H. F. Jordan, Franklin F. Miller, Mrs. C. H. Martin, Mrs. Ed A. Wilson, Mr. and Mrs. F. F. Forbes, Ella McWilliams, Mrs. S. P. Tindill, Mrs. J. P. Lockhart, Lydia Hughes, Mrs. J. F. Boyard, Mrs. Oscar Alexander, Mary C. Cooper, Mary Black, Mr. and Mrs. G. R. Boughter, Mrs. Harry C. Cooke, Mr. and Mrs. Ed Rumbaugh, Hazel Wike, Mary Moorehead, Mr. and Mrs. T. L. Eakin, Mr. and Mrs. J. H. Elmore, Mr. and Mrs. C. E. Arble, Mrs. Ed R. Smith, Alice Cummings, Grace McFate, Frances Cox, Helena Burkhart, Marie Christley, Anna Perry and Martha Powell.

Reports from the secretary, Miss Florence Webb of 75 N. Jackson street, Bellevue, Pa., who is in charge of the reservations, indicate that this 18th annual banquet will probably be the largest informal gathering of a similar nature that has ever taken place away from the campus of the Normal school. The reservations, she states, are mounting every day.

DR. W. B. CALDWELL AT THE AGE OF 83

A Child's Laxative which Mothers Can Rely On

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated infants and children had to be kept "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all children's little ills, he constantly advised mothers to give only a harmless laxative which would help to establish natural bowel "regularity".

In Dr. Caldwell's Syrup Pepsin mothers have a regulating laxative which they can depend upon whenever a child is constipated, bilious, feverish or sick from a cold, indigestion or sour stomach. All children love its pleasant taste.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin", Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself how perfectly it cleanses and regulates the bowels of infants and children.

Publicity Group Plans Extensive Campaign Drive

Boy And Girl Scouts Will Feature With School Band In Publicity Stunt

Clifford Swick Will Design Several Illustrative Window Displays

ELLWOOD CITY, April 21.—"Every civilized community has to have three interests: Churches, schools and a hospital," said H. R. Smith at the first meeting of the publicity committee of the Community Chest drive last night in the Chamber of Commerce quarters.

Ellwood has good churches and schools, and therefore the drive this year will center upon the project of bringing the hospital up-to-date—one that the town may be proud of.

Sub-committees were appointed last evening as follows: Editorial committee, Randall Luke, W. F. Kegel and Mrs. B. J. Bell; advertising committee, J. A. McLaughlin and Fred Shepley.

Several clever plans for publicity stunts were discussed, among which was a proposed parade by members of the Boy and Girl Scout troops, headed by the school band, and bearing placards explaining the objectives of the Community Chest.

It was decided to engage Clifford Swick to design some appropriate window displays for the week of the drive. William F. Kegel, who in addition to being the editor of the local paper, is a clever cartoonist, will do his bit during that week by sketching the fine points of the drive on a large board in one of the windows, illustrating before the eyes of the prospective donors just what the money will do for Ellwood City.

In short, the plan of the committee is to make this year's drive for $51,000 the best that has ever been put on, and is prepared to go to any lengths to obtain the desired results.

Members of the committee present last evening were Chairman H. R. Smith, W. C. Kegel, Mrs. B. J. Bell, W. F. Kegel, J. A. McLaughlin, H. N. Wasser, C. P. Cloak, Randall B. Luke and T. C. Foley.

Capt. Philip Dorr, Patrol Head, Feels That "3 A" Card May Soon Be Used As Bail

Annual Election Of Officers Takes Place At The Sharon Inter-Club Meet

ELLWOOD CITY, April 21.—Captain Philip Dorr, adjutant in charge of the state patrol at Harrisburg, was one of the main speakers at the inter-club conference of the Motor Federation at Sharon yesterday afternoon and evening. Capt. Door said in part: That he wished to stress his appreciation of the fine co-operation the state has Been getting from motor clubs statewide on the motor laws, and stated emphatically that he felt that in a short time the motor federation would have risen to such prominence that a "Three A" membership card could be used as bail in case of a technical violation of a law.

He also stated that promises which have been made regarding the stationing of patrol examining boards in the various towns will be fulfilled, which means that Ellwood City will have an examining unit for new motor drivers wishing to procure their licenses in about 10 days.

During the afternoon meeting reports were read from various committees and B. J. Bell of the local club gave a talk on the magazine which will be sent to all the members this month, with several pages of local news inserted.

W. H. Lawler, president of the Youngstown Club, was re-elected president of the Inter-Club Federation, with the rest of the officers as follows: first vice president, F. A. Weller of the Sharon club; second vice president, Leo D. Brown of the Ashtabula club, and George Reznor of the Sharon club was elected as secretary-treasurer.

During the dinner R. C. Haldeman, president of the Pennsylvania Motor Federation, from Harrisburg, and T. W. Rudderow, general manager of the federation, from the same city, were principal speakers in addition to Capt. Dorr.

Members representing the local club were B. J. Bell, Capt. Howell Jenkins and Henry G. Schenck.

G. A. R. MEETING

ELLWOOD CITY, April 21.—The regular semi-monthly meeting of the members of the G. A. R. will take place Friday evening at 7:40 in the Pythian hall. This is an important session and all members are urged to be present. The business meeting will be followed by a social period and lunch.

Friends Surprise H. J. Workley At Home

ELLWOOD CITY, Pa., April 21.—About one hundred friends and neighbors of H. J. Workley surprised him Wednesday evening at his home in Wurtemburg in honor of his birthday. Bearing lovely and appropriate gifts they invaded his home, and proceeded to entertain themselves with various contests and the following program:

Several piano selections, Mrs. Frank Weddel, also demonstration of the Charleston and Black Bottom; Specialty dances by Miss Virginia MacDonald and Miss Gene Workley; and dancing by Miss Alfretta Wilson.

The affair concluded with the serving of a delicious lunch by Mrs. Thomas MacDonald, Mrs. Lee Wilson and Louis Conway.

Special Evening Service At Church In Wurtemburg

ELLWOOD CITY, April 21.—The Wurtemburg U. P. church will resume the holding of Sunday evening services this coming Sunday. Freatured speaker of the evening will be Prof. V. V. Johnson, who, from his wealth of experience gathered from his associations with the mountain white folks in the schools of Kentucky, will give an interesting lecture.

There have been no evening services during the winter on account of the impassable condition of the roads. Another feature of the evening's entertainment will be several selections by the young people's choir.

Class Ready To Put On Play Here

ELLWOOD CITY, April 21.—Members of class No. 4 of the Bell Memorial church of the north side have completed rehearsals for the presentation of "The Tea Toper Tavern" at the Shelby auditorium Friday evening for the benefit of the building fund of the church.

There are about 14 members in the cast, which is a three-act play built about college life. The costuming is clever, and all the characters are letter-perfect in their parts.

Between acts Gene Metticker will sing and play several selections.

FUNERAL SERVICES

ELLWOOD CITY, April 21.—Funeral services for Samuel Edwin, four-months-old son of Mr. and Mrs. Samuel Partridge, whose death occurred at the home of his parents in Burnstown Tuesday morning following a short illness, were held at the late home yesterday afternoon.

Rev. C. G. Huffer, pastor of the First Christian church, had charge of the services. Interment was made in Locust Grove cemetery.

Return True Bill Against Farrell Bombing Suspect

(Special To The News)

MERCER, Pa., April 21.—The April grand jury returned here at 3 p. m. Wednesday 41 true bills and three not true of the cases for hearing at this term.

The most sensational of the true bills was that against Frank Capano of Farrell, charged by the jury with the attempted bombing of the house of ex-Mayor Fish in Farrell in February of 1925.

It is said that the commonwealth has four witnesses who will testify to the guilt of Capano including the man who hauled the dynamite.

The police picked up the story as the result of a threat made by one of the band following a quarrel between himself and Capano that "he would tell about Fish". It is said that signed confessions have been obtained implicating Capano.

Mike Kralovich on the charge of murder and Joe Rogner on the charge of arson are the other two feature cases returned.

Treat Your Oats Advises McCulloch

Guard Against Smut; Smut Costs Lawrence County Three Bushels Per Acre

"Oats smut decreases the yield of oats in Lawrence county by two or three bushels per acre", stated County Agent H. R. McCulloch this morning. Seed treatment, which costs about three cents per acre, eliminates smut and increases the average yield per acre.

All the equipment which is necessary for appyling the treatment consists of a small hand sprayer of the atomizer type holding one quart, one pint of 40 per cent formaldehyde for each 50 bushels of oats to be treated, and grain sacks or blankets to cover seed after treatment.

Anyone interested in the treating of oats should get in touch with McCulloch at the Lawrence County Agriculture Association on South Croton avenue.

South New Castle Elects Teachers

COME TO GRIEF ANOTHER WAY

Photo of a test of a rubber boat by Commander Richard E. Byrd (at oars), Floyd Bennett and Lieut. George O. Noville shortly before they came to grief following an hour's trial spin in the monoplane "America," which turned over after landing at Hasbrouck Heights, N. J. The flight was a trial for a non-stop New York-Paris hop. Byrd received a fractured wrist. Noville was internally injured. Bennett suffered a broken arm, leg and collar bone. Anthony Fokker, the airplane's designer, also in the plane, was barely scratched. The rubber boat seen above, tested in the Hudson river at New York, is for use in case of a forced landing at sea.

Georgia Papers Raise $500 Fund To Avenge Editor On Rum Runners

ATLANTA, April 21.—The press of Georgia is rallying to the aid of H. M. Flanders editor of the Soperton News who has been made an invalid by the cowardly attack of a masked mob, because he denounced whiskey runners in his newspaper.

A special prosecution fund of $500 to punish the culprits who assaulted him is being raised among newspapers in that state. Doubtless many papers could afford to give that sum easily, but the plan is to let each paper contribute $10 each so that all can have a share in the fund.

Three years ago Flanders was shot down on the streets of Soperton and since then he has been an invalid most of the time. He had completely lost his hearing and last year spent eleven months in an Atlanta hospital under treatment of a nerve specialist.

Flanders had greatly improved in health when he was seized by three masked men who took him into a woods and beat him into insensibility because of his whiskey running editorial. As a result he probably will need crutches for the remainder of his life.

The editor's resources are exhausted, it is said, having borne all the expenses incident to hospital treatments alone and for that reason the newspapers in the state were asked to aid in the special prosecution fund.

Three men including the sheriff of Treutlen county, have ben arrested and released on bond charged with whipping Flanders.

Claim Freight Rates Too High

(International News Service)

WASHINGTON, April 21.—Examiners of the Interstate Commerce commission today recommended that the commission hold that freight rates on iron and steel sheets and plates from Middletown, Ohio, to points in Missouri, Oklahoma, Arkansas, Texas and Louisiana are unreasonable and unduly preferential of Cincinnati, and points within the Cincinnati switching district, and unduly prejudicial to Middletown.

Wife Of "Pussyfoot" Johnson Dies

(International News Service)

WESTERVILLE, O., April 21.—Mrs. William E. Johnson, 64, wife of "pussyfoot" Johnson, internationally known as a prohibition crusader, died here early today. Mrs. Johnson, prior to her marriage at Omaha, Nebraska, in 1886, was private secretary to William Jennings Bryan, two sons and sisters survive her.

The trouble with a lot of persons is that they are ashamed to apologize when they are wrong.

Parents Neglect Is Often Fatal In Diphtheria

Diphtheria can be cured if a good doctor is sent for at the beginning of the disease and antitoxin given says the child health bureau of the Pennsylvania Health Department.

The Lawrence County Health Association is sponsoring a campaign for the prevention of diphtheria among the children of the county and the child health bureau is cooperating in their effort.

If a child once contracts the disease he can be cured by the giving of antitoxin. But the trouble is that parents delay until the disease is far advanced before they call a doctor, says the state department.

Of the children that die of diphtheria in the state there is an average of 4 1-2 days before the doctors are called. Nearly all cases where the doctors were called the first day and gave the cure got well.

Sixty-three cases out of every 100 that die of the disease show neglect of the parents or those in charge of the children in securing proper treatment.

The cure of diphtheria is called antitoxin and the cure is positive if properly given on the first or second day of the disease. Thus, be sure to call your doctor early and give your children antitoxin.

One should keep the child in bed and quiet who has the disease. There is no danger from the effect of the antitoxin.

Dog Poisoner In Mercer County Is Given Stiff Fine

(International News Service)

HARRISBURG, Pa., April 21.—Following receipt of information here that a dog poisoner in Mercer county had been given a 30-day jail sentence and a $100 fine, T. E. Munce, state veterinarian, said the action of the court will be of great assistance to his force in protecting licensed dogs.

Dr. Munce said that field representatives of the bureau of animal industry have been instructed to spare no effort in running down dog poisoners. The prosecution in Mercer was brought by one of the men in the bureau.

HI GIRLS SPEND TO MUCH MONEY ON THEIR DRESS

LOCK HAVEN, Pa., April 21.—The Parent-Teachers' Association of the Jersey Shore schools and the Child Conservation League of that borough are discussing the high school girls' mode of dress, in an endeavor to cut the cost of silk hose and general dress for school girls. Girls of the departmental school who graduate this year are planning to make their graduation dresses under the supervision of their sewing instructor. The dress would not be made commpulsory by the school board, but will be adopted by the Parent-Teacher Association and the girls reached through that organization.

PETERS ADVENTURES IN ANIMAL LAND

By Florence Smith Vincent

THE WIND BEARS A WARNING

Chipmunk was quite as all-of-a-sudden chap as any of the other folk of the field and forest whom the boy had met and without another word away he started. Darting down the fence post he frisked over the ground so fast that Peter, who had to crawl through the fence found it altogether impossible to keep up with him. But Peter remembered Chipmunk's advice—"keep your eye on my tail." So running after him as quickly as he could without getting out of breath he managed to keep Mr. Tamias in sight. Suddenly Chipmunk halted and sat self upright turning his head first this way then that. Peter never stopped, however, but hurried straight on and when he had come up to where his friend was, the little red elf was running about in circles, his sharp nose close to the ground.

"What in the world are you doing, Chipmunk? Looking for food? The earth is perfectly bare here and I don't see a thing. Did you think you scented a berry or an apple or something? Shall I help you look?" Peter would have gotten down on his hands and knees to aid in the search for food but Chipmunk stopped him.

"Snif! Snif! Snif! I smell old Cutie Fox!" cried Chipmunk and Peter could hear the red elf's teeth chattering with fright. "I wish it was food that I scented—nothing to worry about then—but the odor is far different. I can feel the fur rising on my back. Unless I am very much mistaken Fox but recently has passed this way and there is no telling when he may be back. Ugh! The scent is growing stronger. Fox must be hunting downwind."

Just what Chipmunk meant the boy had no idea but he didn't think this was any time to ask questions so he held his tongue. Then Chipmunk sat up, his nose pointed skyward, his small ears erect and although Peter could see his body shaking the brave little red elf remained in that position for almost a minute.

"Just as I thought," chattered Chipmunk at last. "Cutie Fox is on my trail, but he is stalking me from the wrong direction. The wind is bringing his scent to me instead of carrying it away. There is no mistaking it! Dear old wind, Many's the time it has proved my best friend! Follow me, boy, and run for your life. If Fox spies you he will not take time to see that you have but two legs instead of four. He will fall upon you. We have time to escape but no moments to waste. I am heading for my home. Fox is too big to pursue me through the door and once in the burrow we shall be safe. Were it Willy Weasel, now, I would fool him and go another way. Run as you never ran before."

All four feet left the ground and with a leap that carried him many feet Chipmunk was off on the home stretch, bounding over the ground at a speed that amazed the boy. Now Peter might have grown up to boy's size in the twinkling of an eye had he wished to, but he thought what a chance for an adventure was this, and he decided to remain small and to seek safety in the Chipmunk's home. As fast as he could tear, Peter raced after Chipmunk. Good gracious where had the fellow gone! Ah, there he was on the other side of that fallen log. He must be near home. Why had he stopped? What was he saying?

"Hurry! Hurry! Two-legs. This way in! Cutie Fox is almost upon you!" Chipmunk cried his warning as shrilly as he could and frantically waved his bushy tail at Peter.

MAY ENLARGE NEW YORK YANKEE STADIUM

100,000 Crowd May Be Possible

Stadium To Seat 80,000 Is Plan Of Manager Of Yankees

TRIPLE DECK IS IDEA PROJECTED

BY DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, April 21.—Baseball's modern millenium, the once visionary but not quite feasible crowd of 100,000 at a single game, was more than a mirage on a chimerical skyline today. It became a probability of the more or less immediate future when Edward G. Barrow, business manager of the local American League club, informed the writer that, in all likelihood, the capacity of the Yankee Stadium would be increased to 80,000 before the start of the 1928 season.

The stadium, with a seating capacity of some 63,000 at present, is by many thousands the largest edifice dedicated to baseball's popularity and, as such, was deemed at its official opening in 1922 to be the final obeisance before the great god—progress.

Yet, within five years they are talking in terms of alterations, annexes, ante-chambers and additions. And the end is not yet. When they triple-deck all except a nominal section of the bleachers, a development that seems inevitable, the 100,000 goal will be more than achieved. It will be exceeded.

Work on the new addition probably will be started next October, Barrow intimated. He didn't say so, but the writer gained the impression that it might have been begun last winter. But, unfortunately, the boy's didn't know what they know now.

They thought the addicts might turn up absent in great numbers this season because a few random pleasantries had been exchanged under the stands eight years ago when baseball was younger and goofier. But the returns at the turnstiles to date have annulled all trepidation.

The Yanks and Athletics played to 72,000, including standers at the local opening, a baseball record that won't live long. Some 30,000 to 35,000 members of the garment trade were shut out of the park on that occasion and that is not the kind of business baseball likes to transact. With world series and big fights in the offing, the cry for bigger and better stands is due to get an early hearing.

And New York is not the only city to convince the skeptics that an odd scandal or so merely is a part of the general hilarity of modern existence. True, the Yanks were watched by more than 200,000 in their first six games, in spite of the fact that two of them featured the Red Sox, who weren't expected to raw ushers. But other cities did equally well in the matter of comparative attendance; so well, in fact, as to indicate that baseball is on the verge of its biggest business.

SPORTS DONE BROWN

By NORMAN E. BROWN

Despite the murderous rampage of the New York Yankees in the opening series of the year against the much touted Athletics. The American League—considering runs scored and home runs socked—seems to be dishing up a better brand of pitching in a year that bids fair to be replete with spectacular box performances.

Based on the results of the games up to the first Sunday the National League ball wreckers had hung up three times as many home runs as the American League sluggers. This despite the presence of our most popular home run hitter in the younger circuit. The old league boasted 15 homers and the American but five.

In total runs the National League led also, with 142 against 130.

As far as individual achievements go the National League, by an odd coincidence, has seen better pitching. There have been those two two-hit games by the Cardinals' boys, Haines and Sherdel; a neat shutout victory by Percy Jones of the Cubs; a nifty five-hit game and victory for Davey Robertson, comeback pitcher of the Boston Braves, and one or two other neat games.

Sam Jones' four-hit victory over the White Sox for the Browns was about the best offered in the American League in the early games. Crowder's five-hit game for Washington against the Boston Red Sox was a fine bit of hurling.

The disappointing showing of George Uhle, leading pitcher of the American League—and both leagues—last season, has chilled momentarily at least the pennant hopes of the Cleveland Indians.

Judging by the way Connie Mack's hurlers were trounced by the Yankees he has the same old problem ahead of him—to turn good paper pitching into the box.

Realizing meager chance accorded to date or sizing up the possibilities of Mr. Owen Bush as manager of the Pittsburgh Pirates one thing is obvious at this early writing. That is that he has the team on its toes and fighting—not him or one another, but the other team.

Pittsburgh has had many a hope blasted by the failure of this and that manager to combine his baseball brains with ability to handle his men.

No one will question George Gibson's greatness as a player. He still holds the National League record for catching the most games in a season which indicates his dependability as far as playing value is concerned. Gibson, however, couldn't handle men. He was too lenient with them.

Bill McKechnie was able to handle the men individually but wasn't able to keep his poise when the business office and the players began to ride him—and second guess a bit.

So far Bush seems to be master of things. Here's hoping he does not slip.

Phi Pi Phi Team Defeats Kappas

(Special To The News)

NEW WILMINGTON, Pa., April 21—In an interesting pitchers' battle, Phi Pi Phi fraternity baseball team defeated the Kappa Phi Lambda here Wednesday afternoon by a score of 7-3. Wilt of the Phi Pis was invincible until the sixth when he was placed in a hole by a fielding error. Wilt struck out ten, while Garvin for the Kaps performed nearly as well, fanning nine.

The game was the first of the year for the Phi Pi team, while the Kaps had already bagged two victories by defeating the T. U. O.'s and the Delts.

Tilden And Hunter Sail For Germany

(International News Service)

NEW YORK, April 21.—William T. Tilden, 2nd, former national tennis champion, sails for Germany tonight to play in several European tourneys. He will be accompanied by Francis T. Hunter, his doubles partner.

Meeting the best of the European net stars Tilden will attempt a comeback to fit himself for the Davis cup matches. If his lame knee rounds into shape he is confident of bringing the championship back to America this summer.

SORDS POINTS

Two Hits That Beat As One-are Bill And Jess

By NORMAN E. BROWN

Mr. Grover Cleveland Alexander, by virtue of his age, experience, general skill, eagerness to leave Chicago, and work in the world's series of last fall, is rated the outstanding star of the Cardinal pitching staff. Then comes Mr. Flint Rhem, who held out for $20,000 salary, just to prove his value to the club.

And then there are Jess Haines and Bill Sherdel.

All they have to offer in the way of a general plea for consideration this season is a neat little pair of two-hit games to date, with holes punched for more.

Haines stepped in against the Chicago Cubs in the second game of the season and avenged the defeat handed Alex by letting McCarthy's crew down with two bingles—one by Heathcote and one by Cooney.

Two days later Sherdel, wearing the same left hand he has for years, stepped into the box and played now-you-see-it-now-you-don't with the Chicago ball wreckers. Just two men collected hits this time—and they were two others fellows. One was a double by Earl Webb, the newcomer who lambasted the apple for two homers opening day. The other—more's the pity—was a home run by Hack Wilson.

This home run defeated Sherdel, for the simple reason that the Cardinal batters failed to collect at least one run for Bill, although they nicked Percy Jones for six hits.

These nifty pitching bits the opening week fill the Cardinal rooters with hope. Sherdel won 16 games last season, but that record was neutralized somewhat by the fact that the opposition bumped him in the interim 12 times. Haines' record was more impressive. He won 13 and lost but four.

If these two ernest gentry turn in 29 or 30 victories between them this year the Cardinals may fool the critics who insist they can't repeat.

Golf Alphabet—D

By Feg Murray

A well-known four-letter oath that begins with a capital "D", and is usually followed by a Dash in all well ordered golf cartoons showing a Divot-tee of the ancient and horrible pastime trying to blast his way out of a Ditch, is not the only word that begins with the fourth letter of the alphabet that is connected with the game of golf. There is Leo Diegel for instance. And George Duncan and Frank Dolp, and many another D-termined young man who knows what it is to play this "D-vine comedy" known as cow-pasture pool, wherein D-spair and D-light follow each other in rapid succession.

Leo Diegel is a very well-known professional golfer, who, like Abe Mitchell, Mac Smith and Bobby Cruickshank, has never won a United States or British open championship. He has, however, won the Canadian open title twice, and numerous lesser championships. He is a hard fighter with a sunny disposition and a powerful pair of shoulders which enabled him, in 1920, to tie for second in the United States open.

Another D-mon golfer is George Duncan, the fastest player of them all, one of the longest drivers, and the holder of the world's lowest score for 36 holes. The canny Scot won the British open championship in 1920, and the French title in 1913.

Other D's who D-serve a place in the Golf Alphabet are Frank Dolp, the 21-year-old Portland, Oregon, lad who won the 1926 western amateur title; Eddie Driggs of Long Island, known as one of the leading exponents of the arts of football and golf; Frank Dyer, prominent New Jersey amateur who has held many championships; Mrs. Temple Dobell of England (formerly Gladys Ravenscroft), who won the United States women's tournament in 1913; Findlay S. Douglass, United States amateur champion in 1898, and runner-up in '99 and 1900; and Willie Dunn, who won the very first United States open competition back in 1894.

Last, but not least, are three prominent golf writers and authorities: Bernard Darwin of London; Seymour Dunn and John Duncan, the last named being the author of "A. B. C. of Golf".

Feg Murray Says—

"Richards thinks Tilden will win U. S. tennis title."—News headline.

Vinnie has evidently become a "net prophet". "Big Bill", on the other hand, is said to have remarked not long ago that there are no net profits to be derived from investing in Florida Lotts.

Ryantown Cubs Trim Diamonds

The Ryantown Cubs defeated the Diamond Nine 20 to 8 in a game played at the Sampson street field.

James on the mound for the Ryantown team allowed but five hits and fanned ten men, while the Cubs touched Pollard for 13 hits. Masters with five hits featured the game with his hitting.

Sacco Announces O. & P. Program For Two Months

Schedule Released Today Calls For Sixteen Home Games, Fourteen Away

Homestead Grays Booked For Two Games At Centennial Field

Carm Sacco business manager of the New Castle club of the Ohio and Pennsylvania league today issued the schedule the locals will follow until July 4. The card as announced brings 16 games to Centennial field. Fourteen games will be played on foreign soil. The schedule is for the first half of the league season.

Baseball season in this city will open officially on Saturday April 30 with the Youngstown team as the opponents of the Castles. On the following day the locals will hop to the Ohio city for a return engagement.

The groundkeeper at Centennial field is busily engaged in placing the field in proper shape for the opening battle of the year. The New Castle club will start their practice on Saturday afternoon at 2:30 o'clock. It is expected that about 25 candidates will report here for the first scrimmage of the season.

The officials are now engaged in signing up some fast material and the club roster will be announced within a very few days said Sacco. The New Castle club is shy of pitchers for this year but the bushes are being combed for some likely looking prospects.

According to the schedule given out today Posey and his famous Homestead Gray team will play two games here within the next two months.

Following is the schedule for the first half of the season.

Amateur Golf Club Bars Mary Browne

(International News Service)

NEW YORK, April 21.—Miss Mary K. Browne of Santa Monica, Cal., one of America's leading women golfers, is ineligible to participate in American amateur golf competition under a ruling adopted by the United States Golf association. The executive committee declared that in playing professional tennis with C. C. Pyle's trupe, Miss Browne acted in a manner "detrimental to the best interests and true spirit of golf."

Miss Browne who formerly was national women's tennis champion reached the final round in the national women's amateur golf championship in 1924.

Thousands To Greet Pirates In Opening Game At Pittsburgh

(International News Service)

PITTSBURGH, April 21.—Pittsburgh today was a mecca for thousands of dyed-in-the-wool baseball fans prepared to flock to Forbes Field to watch the Pirates open the big league season here this afternoon against the Cincinnati Reds.

Barney Dreyfuss' aides expected 40,000 fans to clock the turnstiles at the ballpark today, despite vagaries of the weatherman, who threw a scare into the thousands who clamored for seats by forecasting showers. Mother Nature, woman-like, changed her mind, however, and the morning passed with clear skies and bright sunshine.

Ray Kremer, Pirate favorite son, was to grace the pitching mound in the opener, with thousands of his rabid supporters demanding that he repeat his performance in winning the league opener at Cincinnati. Smith was slated to catch, while Donohue was believed the Reds' choice to oppose Kremer, with Hargrave catching for the invaders.

Donie Bush, diminutive Pirate manager, who has already endeared himself in the hearts of Pittsburgh fans by leading his team to first position in the National League, was to be given a rousing welcome as he makes his debut as leader of the home team on home grounds.

With him, newly declared in white home suits, the old guard of the Pirates, Cuyler, the Waner brothers, Wright, Traynor and the rest, were to be greeted by bands and the spontaneous welcome of western Pennsylvania baseball fandom—as many of them as can crowd into the stands.

Meantime Donie Bush is confident almost to the point of braggadocio over his team's chances.

"The Pirates are in good shape—better even than I anticipated", he said, "and if we keep up the pace only half as well as we've been going it will take some good teams to head us off".

Inter-Class Track Meet At College On Saturday

(Special To The News)

NEW WILMINGTON, Pa., April 21.—In order to obtain a better line on his men, J. W. Coleman, track coach at Westminster college, has announced an inter-class meet for Saturday afternoon on the college track. Letter-men will participate.

Coach Coleman realizes the need of action since the first meet is scheduled for May 13, when Carnegie Tech is met at Pittsburgh, and thus far, few of the veterans are in top form.

The coach has been devoting considerable time to the developing of hurdlers and distance men, departments in which the team seems to be weakest. Whoever is chosen to run the hurdles will be new at the game, since there are no veterans on the squad who have ever jumped the timbers.

There is a chance that Capt. Wilt, dash-man, may solve the low hurdle problem. He lacks form but has speed and in practice has been running in fair time. Hartwell, another dash-man, may also try his ability at the low timbers. Thus far there is no one in sight with ability at the higher sticks.

Wesley Rose, New Castle lad who returned to school this year after a year's absence, seems to be the only distance man that can be relied upon. Others are new and have not yet shown varsity ability. Myers, a Sharon youth, has plenty of stamina, but has not been clipping off the distances in time that will assure points during the campaign.

Eddie Brown, holder of the conference high jump record, is up to old tricks and may set a new college record as early as Saturday. Walt Hutchison of New Wilmington, is again pole vaulting in good shape. Thomas of Farrell, broad-jumper, is handicapped by a weak ankle.

Yanks-Tigers Tied For Lead

Detroit Tigers Defeat St. Louis, 7 To 0, As Yankees Lose To Macks

GIANTS WIN AT POLO GROUNDS

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, April 21.—The champion New York Yankees, who started the season with six straight victories, today are tied for first place with Detroit, the dark horse of the American league race. The Yanks were unable to conquer their Shibe park complex yesterday and lost to the Athletics, 8 to 5, while the Tigers were blanking the Browns 7 to 0.

The Tigers always have packed a wicked punch, and now they are getting good pitching. Whitehill, who twirled yesterday, held the Brownies to four hits and seven fouls. Fothergill's home run was another feature of Detroit's first home game.

Although the Athletics rate only .500 in the standing of the clubs, they have won four of their last five games and are batting heavily. Cochrane celebrated the A's homecoming yesterday by clouting a homer and a triple against the Yanks, while Branom clipped in with three singles. Both Shocker and Grove, the starting pitchers, took their showers early.

The Pirates, who did not play yesterday, are still in front by a comfortable margin in the National league scramble. The Reds also were idle, but they dropped below Brooklyn to last place when the Dodgers trimmed the Braves 4 to 3.

The Dodgers scored a blazing triumph, as it were. When Barrett knocked a home run, one fan became so excited that his cigar ignited a piece of bunting on the grandstand. The fire department put out the blaze but the robins refused to be put out until they had scored enough runs to win.

Fred Fitzsimmons had the Phillies eating out of his glove and the Giants captured their inaugural game at home before a crowd of 50,000 by a score of 5 to 1. Lindstrom got four hits. The victory put the Giants in second place.

Wee Willie Sherdel beat the Cubs 4 to 2 in the Cardinal's opening, but something evidently is wrong in St. Louis. Only 12,000 fans turned out to greet the world's champions, who used to fill the park on opening day when they were tailenders.

The White Sox inaugural was a success with respect to everything but the ball game, which was won by Cleveland, 5 to 4. Lyons and Shaute, the starting pitchers, were shelled off the mound.

The Senators and Red Sox were not scheduled.

Travers Orders Practice Session For Coaltown Team

Manager "Jokey" Travers of the Coaltown team of the Lawrence County League, has called for a practice session for Friday night at the Coaltown grounds.

The following players are asked to report: H. James, Charles "Bub" Jones, W. Fulkerson, B. Russell, Huff, Gehald Earl, H. Stimple, H. Coates, C. Travers, J. Murphy, Dean, Rodenbaugh, Mackey and all others desiring a tryout with the Coaltown boys this year.

Coaltown is planning for a fast aggregation this year and they intend to bring the Lawrence County pennant back to New Castle.

It is probable that as much trouble has been caused by half-truths as by outright lies.

Acmes' Defeat Junior Team

The Acmes defeated the Third U. P. Juniors on the Colonial field by a score of 12 to 4 in a game played Wednesday morning.

Alexander, on the hill for the Acmes, hurled fine ball, allowing but seven hits and four runs. Lutz, on the mound for the Juniors, was touched up for 11 hits.

Ralph White led the hitting for the winners with two bingles and he also scored three runs. Sage, McLaughlin and Smith also hit timely for the victors.

P. & L. E. Men To Attend Dinner

Several New Castle men are attending the annual dinner of the Agents' association of the Pittsburgh & Lake Erie railroad that is being held in the Gold room of the Fort Pitt hotel in Pittsburgh tonight.

William T. Lewis, burgess of Beaver Falls, is to make the principal address of the evening. Several others will take part in the program.

Those who are attending from New Castle are W. A. Stone, local freight agent; James G. Gormley, superintendent of car service; George W. Hamilton, local passenger agent; Luther Moore, agent at New Castle Junction; Charles Shaffer, chief clerk to the freight agent, and George Miles, cashier in the local office.

There may be something rotten in Denmark. But that you hear comes from broadcasting stations on this side.

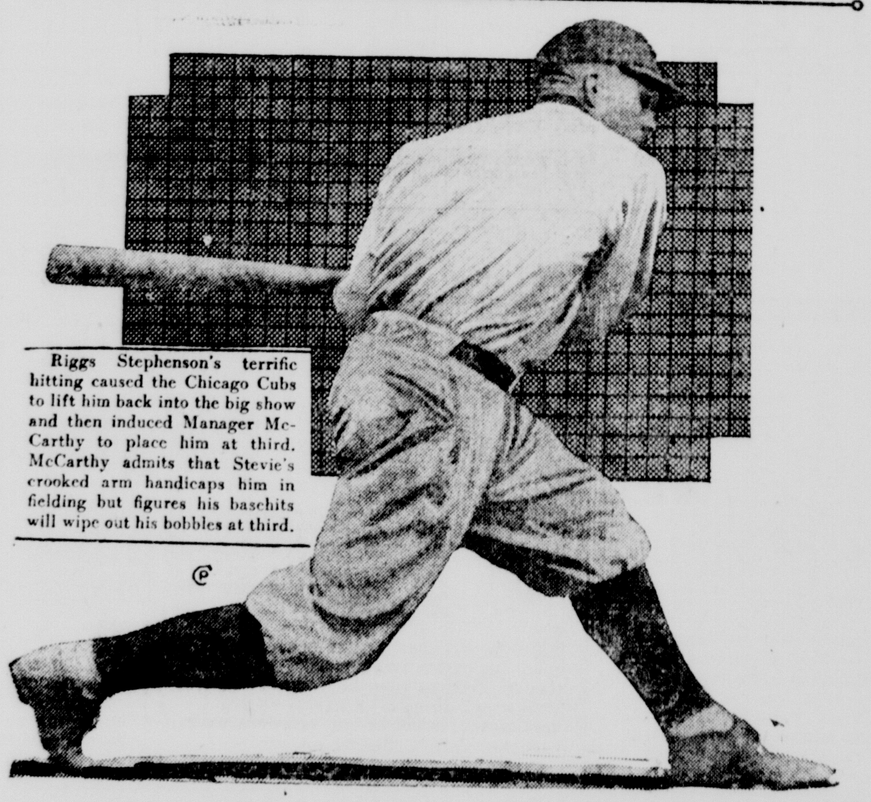
Schedule Matches For Tennis Tourney

The indoor tennis match scheduled for this evening between Miss Ruth Jamison and Mrs. Etleen Stone has been postponed until Monday evening. Besides this match Monday evening there will be a match played off between Mrs. DeLillo and Miss Ruby Niemi. Games begin at 7:30.

Friday evening of this week at 8 o'clock there will be a match between Miss Agnes McClelland and Miss Kathryn Newbury.

Dublin is having a roundup of radio license evaders.

HE DOES HIS FIELDING WITH A BAT



Riggs Stephenson's terrific hitting caused the Chicago Cubs to lift him back into the big show and then induced Manager McCarthy to place him at third. McCarthy admits that Stevie's crooked arm handicaps him in fielding but figures his baschits will wipe out his bobbles at third.

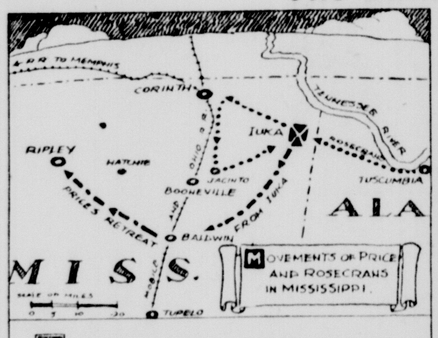
HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

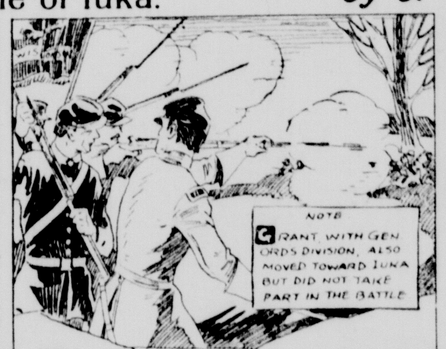
The Battle of Iuka.

by J. CARROLL MANSFIELD

IN SEPTEMBER, 1862, WHEN BRAGG SET OUT TO INVADE KENTUCKY, GEN. STERLING PRICE WITH A FORCE OF ABOUT 12,000 CONFEDERATES WAS ORDERED TO PREVENT THE FEDERAL ARMY OF GEN. ROSECRANS RE-ENFORCING BUELL. PRICE'S CAVALRY ATTEMPTED TO SEVER THE LINE OF COMMUNICATIONS BETWEEN THE TWO UNION ARMIES.



WHEN GRANT HEARD THAT THE CONFEDERATES WERE ADVANCING AT SEVERAL POINTS, HE ORDERED ROSECRANS FROM TUSCUMBIA, ALA., TO CORINTH, MISS. ON THE WAY TO CORINTH, ROSECRANS LEFT A SMALL FORCE AT IUKA TO GUARD A QUANTITY OF SUPPLIES. LATER, PRICE'S TROOPS APPEARED BEFORE IUKA AND THE GARRISON FLED.



THE CONFEDERATES THEN OCCUPIED THE TOWN AND SEIZED THE SUPPLIES. ROSECRANS WAS ORDERED TO TURN BACK AND ON SEPT. 19TH ATTACKED IUKA. A FIERCE STRUGGLE TOOK PLACE, IN WHICH THE FEDERALS WERE REPULSED WITH A LOSS OF 700 MEN.

THAT NIGHT, HOWEVER, PRICE ABANDONED IUKA AND MARCHED TO RIPLEY, WHERE HE WAS JOINED BY GENERAL VAN DORN WITH ANOTHER CONFEDERATE ARMY. THE TWO FORCES WERE CONSOLIDATED AND VAN DORN ASSUMED THE CHIEF COMMAND.

Iron Age Report Of Steel Trade

Weekly Review Of Iron And Steel Conditions Is Presented

The Iron Age in its weekly summary of the iron and steel trade says: New business in steel, with the possible exception of structural shapes, is running 5 to 25 per cent under the sales of the same period of March. Mill operations have not slackened to the same degree. Due to orders accumulated last month and a less complacent attitude toward the coal strike than taken by consumers, producers have curtailed output less than 5 per cent, and a 6 per cent cut in ingot production would still make the current month the highest April on record. Steel prices show no noteworthy changes. The surprising fact is that they are still irregular in the face of the heavy, diversified consumption. The lifting of prices proves difficult under a condition of starting each week with little promise of the source of added business and yet ending it with a sizable total of bookings.

A pronounced falling off in automobile steel demand gives point to claims that this has reached the year's peak. Some motor car companies are operating full, some fairly well, but others are at a low rate. Buying by two large builders for their new models is expected soon, but generally the industry is ordering even closer than it did a month ago.

Shrinkage in demand for oil country pipe is progressive with no signs of a change for some weeks. Shipments of rails and tin plate are also at the expense of order books. Rail mill activity has been extended in cases by using pressure to draw out specifications. The curtailment in tin plate followed the stocking of finished product and can material by can makers.

Sheet business, following one of the most active months in the history of the trade, is weakened by the diminished promise of automobile needs. Most finishes are quotably $1 a ton lower than a week ago. Oil tank orders feature the plate market, one oil company closing for 8960 tons of tank construction. A Pittsburgh coal company bought 6000 tons for barges. The total of structural steel awards for the week was close to 48,000 tons, but fresh injuiries called for only 12,000 tons. Bookings including a 6000-ton bridge over the Monongahela river at Clairton, Pa.

A new factor in structural shapes is the putting into operation by the Bethlehem Steel Co., at its Buffalo plant of a grey, or wide flange beam, mill which can ship to the Middle West and the East by water.

Curtailment of foundry operations is reported, notably at Cincinnati, Pittsburgh and along the Eastern Seaboard, and is restraining further purchases of pig iron. Pittsburgh scrap dealers, who counted on the coal strike to cause the use of more scrap in blast furnaces in order to conserve supplies of coke, find that they miscalculated. Heavy melting steel has declined 25c a ton at Pittsburgh and Chicago, and in virtually all centers, except Buffalo, the scrap market has a weaker tone.

It was thought once the automobile would take more people to church, but it seems to carry a lot of them right by.

Bolivia will extend its Atocha Villazon Railway at a cost of $1,000,000.

N. Y. STOCKS

(International News Service)

NEW YORK, April 21.—Strength in the railroad stocks, the rubber and tire stocks and a few of the motor and specialty shares were the outstanding features of the market at the beginning of trading today. Selling pressure increased as the session advanced, and the market as a whole developed an irregular trend.

Marking down of the Bank of England rate from 5 to 4½ per cent led to conjecture as to the prospect of similar action by the directors of the Federal Reserve Bank of New York at their meeting here today.

Business and industrial reports were generally favorable, though the decline in forward steel orders and the forecasted decrease in first-half 1927 business for the automobile manufacturers was hardly to the liking of the bulls in these stocks money was unchanged at 4 per cent.

The rise of Rock Island to $100 a share, reaching this goal for the first time in ten years of operation of the reorganized road, was an incident of the railroad group. The stock was placed on a $8 annual dividend basis in February, but it is expected that the rate will be increased to $7 in a comparatively short time. Katy, Frisco common, Western Maryland, Missouri Pacific were strong.

Kelly-Springfield continued to lead the low-priced tire stocks, reaching 28¾ in its remarkable rise from a low of 9¾ earlier in the year.

After scoring a new high record above 189, General Motors was freely sold. U. S. Steel also dropped back a point in the second hour, and heaviness extended to other well-known industrial shares.

TORONTO PREPARES FOR RUSH

Like Windsor, Ont., across the river from Detroit, Mich., which is getting ready for the throngs of tourists expected to arrive there when the government opens its liquor stores about the middle of May, Toronto is in the throes of a preparedness program. This includes the erection of three large hotels. More than usual attention also is being paid to road repairs and a uniform road sign system is being installed on the important highways so the tourist will have no difficulty in reaching Toronto. Photos above, show the skyline of the city, the City Hall, left and the Government building, right. Inset is of D. B. Hanna, head of the commission which will control the liquor stores.

CELEBRATE GOLDEN WEDDING

Washington is extending its congratulations to Admiral and Mrs. Presley Marion Rixey of Arlington, Va., on their golden wedding anniversary. Admiral Rixey, who is on the retired list, was official physician to Presidents McKinley, Roosevelt and Taft. Mrs. Rixey was Miss Earlena I. English of Portsmouth, N. H., before her marriage in 1877.

HARRISBURG, Pa., April 21.—State Treasurer Samuel S. Lewis and Auditor General Edward Martin today were named by Gov. John S. Fisher as additional members of the executive board. The Governor announced the names during a session of the board today. Amendments to the administrative code provided for the additions to the board.

At a meeting of the cabinet immediately following approval by executive board, Deputy Attorney General William A. Schnader explained to the various department heads how the recently approved amendments to the code will affect them.

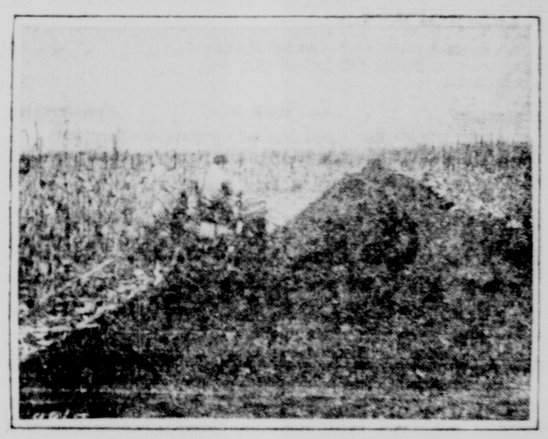
The Governor warned the department heads to keep their departments within the appropriations allotted them and to keep in touch with Arthur Townsend, the budget secretary, to prevent deficiencies.

It was decided at the executive board meeting to start the summer working schedule for state employes on May 2. The hours will be from 8 a. m. to 4 p. m.

Mrs. Snyder In Court

This remarkable picture of Ruth Snyder, one of the first to be taken of her in court, shows her as she watches the selection of jurors who are to determine her guilt or innocence of the murder of her husband, Albert Snyder. Note how the beauty that lured Henry Judd Gray, her alleged accomplice, has fled.

BURYING THE CORN BORER



Putting the European corn borer six inches under. Plowing like this doesn't kill the borer directly, but when the insect crawls to the surface again, it can find no board and room. Birds and starvation do the rest.

RUTH BROWN SNYDER: A One-Minute Study

Mrs. Snyder, on trial in Long Island City, N. Y., was born to Josephine, a nurse, and William Broun, later Brown, a carpenter, on March 24, 1894. At fifteen she figured in her first direct-action affair of the heart when she engaged in a hair-pulling match with another girl voer a male teacher. She quit school and became a phone operator at sixteen, but quit because of a case of "nerves." Became a stenographer in a New York lithographing factory, where she met Albert Schneider, later Snyder, an artist. They wed in 1917. After the birth of her daughter, Lorraine, now nine, the Snyders moved to Queens Village, N. Y., where the wife fell in with a fast set. In 1924 she met Henry Judd Gray in a restaurant. An affair followed—and today the woman is on trial on charges of murdering her husband.

HENRY JUDD GRAY: A Capsule Biography

Gray was born in Cortland, N. Y., in 1893. He had his first love affair at sixteen. He met Isabel Kalenebach, of Brooklyn, at a mountain resort. Five years later he married her. He became a corset salesman. The theory has been advanced that the drabness of this calling urged him to seek adventure—and he sought it in illicit relations with Mrs. Snyder, a similar victim of the humdrum—married life with a man eleven years older than herself. Police charge they stopped at hotels together as man and wife. Mrs. Snyder's husband carried, at her suggestion, $104,000 in insurance. Alive, he stood between her and Gray. On the night of March 19, this year, he was clubbed and strangled to death. Gray and Mrs. Snyder confessed they planned and executed the crime, attempting to frame evidence to indicate Snyder was murdered by robbers.

Clean-Up Week Begins On Sunday

(International News Service)

HARRISBURG, Pa., April 21.—Several state departments and bureaus have joined in a request of the people of Pennsylvania to observe annual clean-up week for the seven days beginning Sunday, April 24. As formerly, the features of health protection, fire prevention and forest conservation will be the prominent factors to consider in the observance week. The state departments of health, welfare, forests and waters and the bureau of fire protection of the state police have joined in the request to the people.

In calling upon the cities, boroughs and individuals to observe this week the state departments have outlined the week's activities. However, they point out that each community may exercise its own judgment in the clean-up program.

The departments today made public the following tentative program:

Sunday, April 24—Clergymen might make mention of the object of clean-up-week.

Monday, April 25. — Highway Day, attention given to the cleaning of the streets and highways.

Tuesday April 26 — Forestry Day, brush and undesirable material in the forests cleaned out, thereby diminishing the dangers of forest fires.

Wednesday, April 27. — Fly and Mosquito Day—Attention given to the places in which flys and mosquitoes breed.

Thursday, April 28—Junk Day, cellars and store buildings cleaned of old rags, papers, etc.

Friday, April 29—Moving Day, all refuge hauled away.

Saturday, April 30.—Finish-Up Day.

Concerning clean-up week the various state departments had comments to make. The department of health said:

"Prevention is the keynote of modern medicine. It is the greatest weapon against disease. Insanitary surroundings and illness are close associates. Germs and flies thrive on filth."

The department of welfare said:

"The annual Clean-Up Week is a dictinct benefit to the eight hundred odd institutions which are under the supervision of the department of welfare. It is worthy of support of every superintendent and warden, backed up by the enthusiastic help of his board of managers."

The department of forests and waters said:

"Clean-Up Week in Pennsylvania comes during the worst forest fire period of the year. For this, and many other reasons, everybody who uses fire should be very careful. The fire that is a helpful servant one minute may become a destructive agent of the worst kind the next minute."

The bureau of fire protection, State Police, said:

"Make Pennsylvania fire proof."

Detroit Is Raising Fund Of $1,000,000 For Boosting City

(International News Service)

DETROIT, Mich, April 21.—The Greater Detroit Million Dollar campaign to advertise Detroit in the cities of the nation, is under way.

Organizations of the Greater Detroit committee has been completed, Charles F. Kettering, vice-president of General Motors and chairman of the committee, has announced. Every industry, merchant, hotel and apartment owner, real estate operator and banking firm will be visited in efforts to get part of their annual advertising appropriations alloted to the drive fund.

"There will be no gifts in this campaign," said Kettering.

"Those participating in the campaign will be making an investment in Detroit."

According to statistics compiled by the committee, Los Angeles, with a population of 1,000,000 has an advertising budget of $1,625,000; San Francisco $1,200,000, and Atlanta with 250,000 people, $1,000,000.

The $1,000,000 fund here will be spent over a three-year period, the committee states. Subscriptions can also be paid over this period. About $225,000 of the total will be allotted to the Detroit Convention and Tourist bureau for the three years. The remainder will be spent in newspaper and magazine advertising.

Things to Know Before Baby Comes

THE expectant mother's comfort and well being is very important. And one of the most important things for her to do is to use Mother's Friend to keep the skin and muscles soft and pliable—thus aiding the tissues and muscles to relax and adjust themselves to the changes during motherhood. Mother's Friend is the formula of an eminent physician and has been used by expectant mothers for *over three generations*. No woman awaiting the joy of motherhood should allow the days to pass without using Mother's Friend.

Mrs. Laura Hendrix, Gracemont, Okla., writes: "I used Mother's Friend with all my babies and I think it is the grandest help that has ever been discovered for expectant mothers. I can't say too much for it."

Mother's Friend is safe for you to use because it contains no harmful drugs and is applied externally.

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 21, Atlanta, Ga., for *free* valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—*everywhere*.

Belgium To Have Gordon Bennett Entry This Year

BRUSSELS, April 21 — Belgium probably will have only one entry in the Gordon Bennett Balloon Race to be contested at Detroit on July 4.

The government having declined to contribute toward the expenses of Belgian participants, public subscriptions are being taken up by the Belgian Aeroclub for the purpose. The Belgian representative will be chosen in a special trial race to be held before May first.

'I'm Dead And Intend To Stay Dead,' Says Denver Man, Refusing Riches

By M. F. DACEY.
International News Service Staff Correspondent

DENVER, April 21.—"Tell them I'm dead—and that I'm going to stay dead and buried."

That is the message John J. Shackleford sent his kin in Hardin, Mo., when he was notified of his inheritance of $2,500 and a share in the family homestead left him by his mother.

Twelve years ago Shackleford's father died. When his estate was settled John was left without a cent. The years of toil he had sacrificed on the 40-acre farm had been ignored by his father.

Angry and bitter John departed from the parental roof, telling his grief-stricken mother and sister that he was going away "to die."

Years of Search.

Years of search by private detectives revealed no clue to the living man's whereabouts.

Report's from Shackleford's death came frequently to the waiting mother and sister. In San Francisco a man had died—he was thought to have been John J. Shackleford. The bullet-born bodies of unknown American doughboys were identified at Shackleford. A wreck victim in Pittsburgh was thought to be the missing man.

But the living Shackleford was in Denver earning a meagre pittance, staying at a little hotel where derelicts of industry spend their winter grubstaks in near penury and envy the luck of Rockefeller and Henry Ford.

Last year the aged mother died. Half the estate now increased in value was bequeathed to the faithful sister, half went to the man who never was believed dead by his mother.

Again the search for Shackleford was renewed. The Rev. H. E. Corbin, pastor of the Hardin Methodist church sent to Denver in quest of the strayed member of his flock.

Intends to Stay Dead.

Shackleford was located in the mean little hotel where he was confronted with the news of his inheritance.

Anger blazed in the little man's eyes as he recalled his leavetaking.

"I've been dead 12 years" he said, "and I intend to stay dead."

The information that his inheritance would if unclaimed go to the county school fund did not shake his determination to spurn the bequest. His cronies at the hotel to whom the news spread like wildfire, gaped open mouthed at the man who would reject an opportunity to live a life of ease.

And so John J. Shackleford lives on—a dead man by choice. But his former friends in the little Missouri town are trying to bring about a reconciliation and win him back from his self-imposed demise.

School Lassies Set New Styles

(International News Service)

SWEET GRASS, Mont., April 21.—Up here in the oil fields along the Canadian-Montana boundary line where bootleggers bound from crag to crag, a jump or two ahead of one of the prohibition enforcement officers, the high school girls are setting a new style.

Sunburst, a rival community only 10 miles down the pipelines, started all the trouble when the high school girls adopted bib overalls as the correct thing for young misses this spring.

Sweet Grass girls met the challenge by storming all the local stores for the pea jackets which are popular with United States sailors and found their way inland via "army-navy" stores.

The overalls were outclassed when the Sweet Grass misses appeared wearing the blue serge pea jackets, with their shining brass buttons and the original Oxford bags, the bell bottom trousers of the horn pipers. Middy shirts are now being sought to complete the ensemble.

Fine for Children!

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath, and similar disorders. Dr. Edwards, a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.
